

SUBMARINES SINK
TWO STEAMERSSend British Ship Edale
and Russian Steamer
Svorono to Bottom

BOTH CREWS ARE SAVED

English Papers Announce Ad-
miralty Has Found a Means of
Dealing With Submarines

INTEREST TURNS TO EAST

LONDON, May 1.—(10:45 p. m.)—German submarines, which for several weeks had been confining themselves to the North Sea where they sank a number of trawlers, again have made their appearance on the trade routes off the west coasts of Ireland and England and caught two victims. They were the British steamer Edale, which was sunk off the Scilly Islands, and the Russian steamer Svorono, which was attacked off the Basque Islands. In each case the crew was saved.

Expect Bigger Effort.
This taken in connection with the warning issued to American travelers on trans-Atlantic liners, doubtless means another attempt with a greater number of submarines to combat the blockade by England. It is only just announced by the English papers that the admiralty has found a means of dealing with submarines and the people, in view of the latest attacks upon steamers, are awaiting the result with considerable interest.

In face of these submarine attacks, Zeppelin raids and the bombardment of Dunkirk, which bring the war closer home, England remains as calm as ever. There are some of course, who feel anxiety over the western battle line but generally the feeling is one of optimism based on the success with which the allies have withstood former attempts of the Germans to get through to the coast ports. The bombardment of Dunkirk, which was repeated yesterday and which has resulted in considerable loss of life has caused many women and children to leave the town. The Germans can repeat this bombardment whenever they desire, with the big guns which formerly were posted on the coast to ward off attacks from the allied fleet and which have been moved up in the direction of Newport. Still there is confidence that the navy and airmen will find a means of dealing with the guns.

Interest Turns to East.
On the remainder of the western front things are comparatively quiet, although the French appear to be still on the offensive between the Meuse and the Moselle rivers, the Germans claiming to have repulsed attacks there. Consequently, with the situation at the Dardanelles established interest has turned again to the eastern front, particularly to the Russian Baltic provinces which are being raided by the Germans.

The extent of this new raid has not been disclosed. Although the Germans announce that the Russians evacuated and burned Szwel and retired toward Mitva, there is no evidence of any big battle being fought and the Russians express confidence in their ability to deal with this new diversion.

Russ Claim Success.
Along the east Prussian frontier and in central Poland there has been a renewal of the fighting which the spring floods interrupted while in the Carpathians, where the ground is drying the Russians and Austrians again are contending for Uznok Pass. For the moment the Russians have turned from their offensive against that pass to attack the Austrians, who were threatening their communications in the direction of Stry and have, according to their report, won considerable success, capturing two heights and a number of the line. There is evidence in despatches from Athens that the allied fleet has recommended the bombardment of the Dardanelles but there is no official confirmation available. The French minister of marine however, in an interview, expressed the opinion that decisive results would come quickly.

Anticipate Offensive in East.
It is expected that a big offensive will soon be undertaken on the eastern front, probably by the Germans who have been feeling their way toward the Russian positions around the east Prussian frontier, although this may be a feint to hide the movement in some other part of the line. There is evidence in despatches from Athens that the allied fleet has recommended the bombardment of the Dardanelles but there is no official confirmation available. The French minister of marine however, in an interview, expressed the opinion that decisive results would come quickly.

BRYAN SAYS REPORTS
ARE UNFOUNDED
Washington, May 1.—Published reports that the visit of Dr. Lauro Muller, the Brazilian foreign minister to Argentina and Chile had for its object the formation of an alliance by those countries to counteract the influence of the United States in the Western Hemisphere were said to be unfounded by Secretary Bryan today.

WILL BEGIN RUNNING PACKETS
BETWEEN LA SALLE & NEW ORLEANSDurne States Only Opposition to Bill
Comes From Private Utility Cor-
porations of the States.

Springfield, Ill., May 1.—In despatching the building of Governor Dunne's proposed waterway connecting the Illinois river with the Chicago drainage canal, a company will begin running packets between LaSalle, the head of the navigation in the Illinois river, and New Orleans on May 22nd.

This information was received from E. S. Conway, manager of a piano company, which will ship a load of pianos from Chicago at a freight rate of seventy-two cents compared with an all-rail rate of 1.10. The company will ship its product to LaSalle where it will be transferred to boat and taken down the Illinois and Mississippi rivers.

At present the foot channel exists from New Orleans to LaSalle and much deeper channel (the Chicago drainage canal) from Joliet to Chicago. The proposed waterway would provide an eight foot channel for the sixty-five miles between LaSalle and Joliet.

Governor Dunne today issued a statement declaring that practically the only opposition to the administration bill now before the legislature providing for the constructing of the new waterway comes from the private utility corporations of the state which would lose their monopoly on electric power through the development of such power along the Illinois river, which is a part of the governor's plan.

WEST SAILS FROM VERA CRUZ; TO
REACH WASHINGTON THIS WEEKAdministration Officials Await His
Return With Interest—Will Re-
port to President.

Washington, May 1.—Administration officials are awaiting with interest the return to Washington of Duval West, President Wilson's personal representative in Mexico, who sailed from Vera Cruz today for Havana. He will reach here next week.

Secretary Bryan said today the state department has received several letters from Mr. West giving incomplete reports of his inquiries and conferences with leaders of rival Mexican factions.

These letters however, left much to be desired in the full report, which Mr. West will make to the president. Mr. West has had personal interviews with Generals Carranza, Villa and Zapata and many of their supporters.

The Villa agency here received late tonight a despatch from Villa headquarters at Chihuahua reporting a battle said to have occurred yesterday between Villa forces and those of General Obregon, between Silao and Irapuato. The message was from Villa's foreign minister and said that the enemy had been repulsed and driven back ten miles with slight losses to the Villa forces but a considerable loss to their antagonist.

WILSON TO ACT AS GODFATHER
AT CHRISTENING OF GRANDSONLays Aside Cares of President for
Two Days—Will Leave for Wash-
ington This Afternoon.

Williamstown, Mass., May 1.—Woodrow Wilson laid aside cares of president of the United States here today and became merely the grandfather of Francis Sayre, the small son of his daughter Jessie and of Francis B. Sayre, assistant to the president of Williams College.

As soon as the ceremony was placed in the grounds the president turned a spadeful of earth around his roots and then all present followed suit. After the brief ceremony, tea was served in the Sayre home. The christening tomorrow will be held in St. John's Protestant Episcopal church at 2:30 o'clock and only members of the Sayre and Wilson families will be present. Mr. Sayre is an Episcopalian, the Wilson family is Presbyterian.

DESCRIBES ATTACK
AS UNWARRANTED

The Hague, May 1.—Via London, (3:20 a. m.)—The German aeroplane attack on the American Tanker Cushing in the North Sea last Wednesday was described as unwarranted by Captain Larz Herland of the Cushing tonight.

The weather was clear and the opinion of the skipper the attack could not fall to see the flag and name of the vessel, which was painted in six foot letters on both sides of the hull. The Cushing will leave Rotterdam for New York on Sunday morning with the stars and stripes painted brightly all over her hull.

CHARGE EMBEZZLEMENT

Springfield, Ill., May 1.—Patrick J. Hart, former secretary of the state bureau of labor was indicted by the Sangamon county grand jury today for the embezzlement of \$4300 from the state. Hart was arrested nearly a year ago in Montana.

VANDERLIP PRESIDES AT
SESSION OF SCIENTISTSBELIEVES U.S. HAS NOT FELT FULL
FINANCIAL EFFECT OF WARStates Inflation of Note Leases and
the Inflation of Credit in Coun-
tries at War Has Acted as a Cush-
ion Against the Shock.

Philadelphia, May 1.—Frank A. Vanderlip, president of the National City Bank of New York, at today's session of the annual meeting of the American academy Political and social science said that the United States has not yet felt the full financial effect of the European war. He presided at the session at which was discussed America's financial position as affected by the war and spoke briefly before introducing the speakers on the program.

Mr. Vanderlip said the inflation of note issues and the inflation of credit in the European countries at war has acted as a cushion against the shock. He thought the effect on the financial situation will eventually be felt more seriously than it is at present.

Only Time Can Tell.
T. W. Lamont, a member of the Morgan banking firm of New York, said that only time could tell whether New York would supersede London as the world's money center. Even with the wonderful resources, he said, it would probably be many years before America could become the financial center.

To become so, he added, the United States must build up new markets. In such developments the duration of the war is bound to be a determining factor.

At the morning session Dr. Bernhard Dernburg, former colonial secretary to Germany, spoke briefly. He denied a statement made at last night's session of the academy that Germany had protested against the right of the United States to ship arms to belligerents.

Dr. Joseph French Johnson of New York University said he believed the United States will have to furnish money and foodstuffs after the war to help Europe make a quick recovery. Dr. Edwin S. Meade of the University of Pennsylvania did not expect a great inflow of immigrants after the war as the able bodied men will be needed at home.

Meeting Closes.
A. B. Leach, president of the investment bankers' association, said the net result of the war on this country's finances would be of substantial benefit. The meeting closed tonight with a discussion of America's possible contribution to a constructive peace.

Speakers included August Schvan, former Swedish diplomat; Oscar S. Straus, former ambassador to Turkey and Morris Hillquit, New York.

A paper by G. Lowes Dickinson of Kings College, England, was read in which he suggested, among other things, that peace be established through the intervention of a President Wilson.

FEAR BILL TO REGULATE PRIVATE
BANKS WILL NOT BE PASSED

SPRINGFIELD, Ill., May 1.—Friends of a bill providing for the state regulation of private banks today expressed themselves as fearful that the bill, which was introduced early in the session will not be passed.

It was referred to the house committee on banks and banking but that committee has held only one session so far this session. At that session Representative Thon declared that the enemies of his bill were in the majority. State regulation of private banks has been introduced by practically all of the press and banking organizations of the state.

INTERNATIONAL CONGRESS OF
WOMEN CONCLUDES SESSIONS

THE HAGUE, via London, May 1.—(3:45 p. m.)—The International Congress of Women concluded its sessions here today. At the final meeting there was adopted a proposal to send delegations representing the congress to the president of the United States and to the heads of all the European powers for the purpose of demanding immediate cessation of the war.

On the conclusion of the congress many of the delegates left The Hague immediately.

The American delegates scattered, various members leaving for Germany, Belgium, Switzerland, France, England or other countries.

U. S. CONSULATE BURNS

Washington, May 1.—The American consulate was among the buildings destroyed by fire in the business section of Colon, Panama, last night according to a cablegram to the state department today which said the fire spread over an area of twenty-two blocks; that two persons were killed and twenty injured and that 15,000 people, mostly negroes, were homeless.

GILMORE SUSPENDS KAUFF

New York, May 1.—Benny Kauff, star outfielder of the Federal League who jumped to the New York Nationals and was today turned back by that club to the Brooklyn Federals, was tonight indefinitely suspended by President Gilmore of the Federal League.

War News Summarized

The renewal of activities in the eastern theater of war and the operations at the Dardanelles are the main features of the war news. From northern Poland to the Carpathians the fighting which has been retarded by inclement weather, has taken on a new vigor and especial attention is directed toward the new German invasion of the Russian Baltic provinces where the Germans claim to be making progress.

While no official reports have come through from the Dardanelles recently, unofficial statements indicate that the allied fleet is carrying on a heavy bombardment. In connection with these operations the French minister of marine has asserted that decisive results may be expected soon.

In the west the Germans have been bombarding Dunkirk from the land side. The German submarines, after a considerable lull in their operations, have made a new raid on the west coast of England and Ireland and sunk two steamers, one a British vessel and the other a Russian.

The bombardment of Dunkirk has resulted in a considerable loss of life and many women and children have fled from that place.

Along the remainder of the western front comparative quiet prevails, although artillery engagements have taken place between the Meuse and the Moselle rivers. The Germans claim to have repulsed French attacks there with heavy losses.

According to a semi-official statement issued in Petrograd the new offensive of the German forces on the right bank of the Niemen river is of no strategic importance.

The Russians claim a successful advance on the left bank of the Niemen. They report that the Germans have been repulsed in two attacks on the Ossowetz front with large losses.

In the southern zone the Austrians, the Petrograd official statement says, developed an offensive on April 29th in the Carpathians but were beaten back. The Austrian official statement on its part is quite as optimistic as that of the Russian, from its viewpoint. It asserts that the Russian troops have been dislodged from several positions in Poland and that they have met with heavy losses in attempting violent attacks against the heights in the Orava and Opar Valleys.

According to a report from the Quency district, had received no word of the Palm Springs tragedy up to a late hour tonight.

DEMAND FOR HORSES SWELLS
MISCELLANEOUS EXPORTSHorses and Mules Valued at \$9,-
344,733 are Sent Abroad During
March.

Washington, May 1.—Because of the great demand for American horses and mules by the fighting forces in Europe miscellaneous exports last March reached a total of \$9,344,733, against \$861,188 in March of the preceding year. The statement of foreign commerce for March issued today by the commerce department shows that horses valued at \$8,088,974 and mules worth \$1,255,759 went abroad during that time.

Domestic exports for the time amounted to \$292,250,231 as against \$183,934,601 in 1914, the largest individual increase being in cereals foodstuffs which rose from \$7,168,732 last year to \$52,129,999 in March 1915.

Of the total exports the United Kingdom took \$93,334,632, as compared to \$43,848,656 last year, while Germany received \$283,816 as against \$28,219,120 in March 1914.

EARLY MORNING FIRE AT PEORIA;
CAUSES A LOSS OF \$50,000

PEORIA, Ill., May 2.—Four separate fires, each declared by fire department heads to have been incendiary, which broke out in the wholesale commission district this morning at one o'clock for a time threatened the whole business section of the city.

A quick response to a general alarm by every fire machine in the city enabled the department to control the flames with a loss of \$50,000.

LAWSON CASE GOES TO JURY

Trinidad, Colo., May 1.—The fate of John R. Lawson is in the hands of twelve ranchmen and business men of Las Animas county. The case, in which the labor leader is charged with the murder of John Nimmo, went to the jury tonight. Nimmo, a deputy sheriff, was killed October 25th, 1913, in one of the battles which featured the recent strike of Colorado miners.

At midnight Judge Hillyer ordered the jurors to their lodgings. He stated that he would not receive a verdict before Monday morning.

FLEET BOMBARD NAGARA

London, May 1.—(8:35 p. m.)—The Athens correspondent of the Exchange Telegraph company sends the following despatch regarding operations at the Dardanelles:

"The fleet violently bombarded Nagara, but the forts did not reply. The Turks are unable to pass over to the Asiatic shore on account of the indirect fire of the allies. The Turkish troops at present are concerned around Maldo."

RANCH HAND IS KILLED;
PRIEST HURT IN FIGHTYOUTH ATTEMPTS TO KILL ILLINOIS
CLERGYMAN AND NURSEAuthorities to Investigate Whether
Man Was Killed by Shot Fired by
Priest or in a Struggle With Miss
Sherrer.

Palm Springs, Cal., May 1.—Peter Glennon, a young ranch hand, was killed and the Rev. Paul Reinfels, a Catholic priest from Paloma, Ill., was wounded in the right forearm in a fight last night at Chino Canyon, a gulch frequented by health seekers, five miles from here in the Riverside county desert.

Glennon shot Father Reinfels in an effort to kill him and Miss Clara Sherrer, a San Francisco nurse attending the priest, who has been ill of pneumonia, but whether the young man received his own death wound from a shot fired by the priest or was killed in a struggle with Miss Sherrer will be investigated.

Glennon is said to have been in love with the girl.

According to accounts given by the priest and the young woman, he traveled five miles from the ranch where he was employed, to the Chino camp and going to the priest's tent announced that he intended to kill both the clergyman and Miss Sherrer. He thereupon opened fire. Miss Sherrer grappled with the assailant. As she and the man fought Father Reinfels drew his own revolver and fired one shot. Glennon stumbled and fell into a small spring near the tent. Miss Sherrer asserted that still another shot was fired and that this came from Glennon's own revolver, which was discharged during her struggle with him.

Went West for Health.

Quincy, Ill., May 1.—The Rev. Paul Reinfels is one of the most beloved priests in the Quincy district, and is pastor of the churches at Paloma, Bloomfield and Mendon, Ill. Last December his health commenced to break and he was forced on several occasions to give up his work, but refused to retire even temporarily from his parish until Bishop Ryan of the Alton diocese urged him to seek restoration of his health on the Pacific slope.

Suffering from what was apparently a nervous breakdown, with symptoms of bronchial trouble, Father Reinfels left for California three weeks ago. Word from him a few days ago brought the word that he was rapidly improving and that he hoped to be able to return in a few weeks, fully restored in health.

COMMEMORATE ANNIVERSARY
OF THE BATTLE OF MANILA BAY

WASHINGTON, May 1.—Admiral Dewey received a message today from Secretary Daniels who is aboard the U. S. S. Mayflower at Hampton Roads, commemorating the anniversary of the battle of Manila Bay in 1898. It read: "Upon this the anniversary of your victory, the fleet assembled in Hampton Roads joins me in cordial felicitations. All hope you may be vouchsafed many more years of active service to your grateful country."

The Society of Manila Bay held its annual re-union tonight at the Army and Navy Club. It is composed of officers who served with Dewey at Manila. The admiral was unable to attend.

BARNES FORCES SUMMON ABOUT
TWENTY-FIVE TO TESTIFY AT TRIAL

SYRACUSE, N. Y., May 1.—Counsel for William Barnes in his suit for libel against Theodore Roosevelt spent today preparing evidence for submission after the case of the defense rests next week.

It was said that about 25 witnesses, many of them state officials or former state officials, had been summoned to appear by the Barnes forces. It was stated that Mr. Barnes himself would go on the stand.

Counsel for Colonel Roosevelt spent the day in making plans for the completion of their case. They said they doubted whether they could rest their case before Wednesday afternoon.

Colonel Roosevelt spent the better part of the day catching up with his correspondence.

HOLD WELLS FOR MURDER.

Springfield, Ill., May 1.—Jefferson D. Wells of this city, pardoned from Joliet in 1893 by Governor Altgeld, following conviction for the murder of V. M. Colls of Winchester, Ill., was tonight held on a charge of murder by the local police for slaying James Baskett, a negro bartender.

THOUSANDS OF ACRES FLOODED

Lewisville, Ark., May 1.—A fight of several days to save the Red River levee near here was lost today when water went over the embankment and flooded thousands of fertile acres covered with growing crops. The loss to the farmers will be large. The gap in the levee is a mile and a half long.

REJECTION OF "GENERAL GROUP"
OCCASIONS LITTLE SURPRISEObservers in Washington do not Be-
lieve a Crisis Has Been Reached in
Chino-Japanese Negotiations.

Washington, May 1.—Rejection by China of the so-called "general group" of the Japanese demands which was announced today from Peking, occasioned little surprise in official quarters here. Observers here familiar with far eastern affairs did not believe that a crisis had been reached; but that with the expression by each side in the negotiations of its extreme position the way would be opened for compromises.

It is known that Japan will continue, at all events, to insist on an acceptance of her demands for railway rights as well as the article relating to the purchase of arms and ammunition by China in Japan. The Japanese not only are anxious to stimulate their own industries in the manufacture of arms and open up a nearby market but it is said by well informed Japanese officials that Japanese firms are anxious to obtain contracts for the sale to Chinese soldiers of uniforms exactly like those worn by the Japanese troops. One of the most important demands which China now has rejected and of peculiar interest to American missionaries is that asking for the right to discuss at a future date the propagation of Buddhism in China. The Japanese many years ago endeavored to introduce that form of worship into China on an extensive scale but the Chinese dynasty refused to permit it.

It is assumed in diplomatic quarters here that both the United States and Great Britain are quietly exerting influence toward a satisfactory adjustment of the situation by compromise.

HAS NOT DECIDED TO TAKE ANY
ACTION IN REGARD TO WARNINGSecretary Bryan Says Matter has not
Been Brought Officially to His At-
tention.

Washington, May 1.—The state department has not decided to take any action so far as could be learned tonight in regard to the German embassy advertisement in numerous newspapers warning American travelers of the risk they ran in traversing the war zone in merchant vessels belonging to Germany's enemies.

Secretary Bryan said the matter had not been brought officially to his attention. It was understood, however, that both the British and French embassies had mentioned the advertisement today to department officials though in an informal way and without making any specific complaint or request in regard to it.

The attitude of the state department is understood to be such that it may take no notice of the advertisement unless formal complaint is made.

The basis for any such complaint remains to be defined as some officials admit that there is so far as they know no precedent to follow. The usual course pursued by a diplomatic representative of a foreign government in Washington who wishes to communicate with the American public it was pointed out is to address a suitable request to the state department. It is admitted however, that since the beginning of the present war, virtually all the belligerent nations have made free use of the American newspaper advertising columns without reference to the department in urging their nationals to return to their home countries for military service.

REPORTS SERIOUS DEFEAT

Cape Town, via London, May 1.—(11:55 p. m.)—The following official statement regarding the operations in South Africa was issued today:

"General McKenzie's mounted forces which was designated to cut off the Germans, who after the evacuation of Keetmanshoop retreated northward along the railway, inflicted a serious defeat on them in the vicinity of Gibeon. The union forces, by destroying the railway north of Gibeon, captured a whole railway train, a number of transport wagons, a great quantity of livestock, two field guns, several maxims and two hundred prisoners.

"The remnant of the German force, which was 800 strong, escaped owing to the rough ground obstructing the movements of the cavalry."

AUSTRIANS REPORT SUCCESS.

Vienna, via London, May 1.—(11:07 p. m.)—The following Austrian official war statement was given out here tonight:

"In Russian Poland lively artillery engagements are reported. Russian troops have been dislodged from several positions.

"In Western Galicia and in the Carpathians there is no change.

"In southeast Galicia and Bukovina there have been artillery engagements at times. South of Zaleszycki one of our batteries set fire to a Russian ammunition store."

LYON WINS CHAMPIONSHIP

New York, May 1.—George L. Lyon of Durham, N. C., scotting under the colors of the New York Athletic club won the tenth annual championship of America at clay birds over the Traverse Island traps of the New York A. C. today. He made 192 out of a possible 200, a new record.

REFUSE TO ISSUE
SALOON LICENSESDanville is Reasonably
Dry for the First
Time Since 1875

DROP MANDAMUS PLAN

Action to Compel Issuance of
Licenses By Council Is Aban-
doned By Attorneys for 'Wets'

'DRYS' SERENADE ALDERMEN

DANVILLE, Ill., May 1.—Reasonably dry, for the first time since 1875, described Danville's condition today following the action of the city council in refusing to issue licenses to the seventy-two saloons and light wholesale liquor dealers.

"Wets" Do Not Despair.
While the dry majority in the council claim there will be no licenses issued during the next year the wets do not entirely despair because the present mayor, W. C. Lewman, was re-elected this spring on a wet platform and they believe the burden of enforcing the "closed town" program will be upon the dries.

Tonight all but eight of the saloons were open for business in the soft drinks line, and tomorrow, for the first time in its history, the city will have saloons running "wide open" with signs heralding pop, ginger ale and lemonade as beverages instead of the usual beer and whiskey signs.

Drop Mandamus Plan.
That the wets overlooked a "bet" was found today when their attorneys began preparations for applying for a writ of mandamus to compel the issuance of licenses and discovered that the city ordinance provides for the payment of the fee in quarterly installments instead of the entire amount in advance as provided in the statute. The plan was immediately dropped.

However, the ordinance covering wholesale licenses is in accordance with the state law and it is probable that licenses will be issued to the wholesale dealers, it being alleged that the supreme court has held that it was mandatory on the city council to issue licenses when the full amount of the license fee for one year in advance was tendered in wet territory.

Serenade "Dry" Aldermen.

Prominent members of the ministerial association and a large number of dry leaders tonight serenaded with speeches and hymns the business places and homes of the eight dry aldermen who today refused to issue licenses.

ENDORSES HUMANITARIAN WORK
OF ROCKEFELLER FOUNDATION

DES MOINES, Iowa, May 1.—A recommendation that the missionaries of the Methodist Episcopal church throughout the world co-operate with the representatives of the Rockefeller Institute in their work was included in resolutions adopted today by the board of bishops at their meeting here. The board endorsed the humanitarian work of the foundation in Europe and America and its proposed work in China and Malaysia.

The board accepted the overture of church unity made by the Methodist Episcopal church south. The resolution of acceptance was adopted by an unanimous rising vote.

HEALTH OFFICIALS TO MEET

Topeka, Kans., May 1.—A meeting of state, county and city health officials of Missouri, Kansas, Nebraska and Iowa has been called for May 11th at St. Joseph, which has for its object the organization of a Missouri Valley health association. It is planned that the organization shall conduct an educational campaign in the four states and co-operate towards sanitation and uniform health regulations.

Swatting the Fly.

Over in Springfield they are beginning early in the 1915 war on flies and a regular "swat the fly" campaign has been organized. A number of merchants are giving away "swatters" and prizes have been offered in some of the schools for the pupils showing the highest record in the number of flies killed. The most important feature of the campaign, however, will be the educational work in pointing out to the people how much danger there is in the matter of health from flies. A lecture is to be given with this purpose in view on Tuesday by the state analyst of the board of health.

The Athletic Meet.

The first interscholastic meet promoted by Illinois College, held Saturday was a great success. The general plans for the meet had been well matured and the arrangements were carried out in a way which gave proof of the excellence of the management. There were several hundred visitors in the city and the meet no doubt resulted in new friendships for the College. From the business man's standpoint the occasion was an important one, bringing as it did so many new people to the city. No doubt the meet thus so successfully inaugurated will grow in interest and enthusiasm with coming years.

Economic Value of the Automobile.

While there has been some talk about hard times among farmers and others in Morgan county during recent months, the fact remains that the sales of automobiles to farmers this season have been more numerous than ever before. A well known banker yesterday predicted that there is even a fair wheat crop, with the high price that is already guaranteed for this grain, that all sales records for cars in this county will be broken during 1915.

The time was when those who talked about the stringency of financial matters almost always said, "Well, one reason is because the farmers have invested so much in automobiles." But now it is realized that the automobile has its definite economic value in the consideration of the business of farming. The automobile at present selling prices is not a luxury for the average farmer, but saves him so much in time that it is really a paying investment. There should be added to this consideration of value the fact that the automobile has given the farmer a wider view and has aided very materially his progressive spirits. The farmer who formerly confined his travels to an area of ten to fifteen miles of his home place, now takes his car and covers forty or fifty miles, with the result that he gets in touch with what is being done in a larger number of communities and a great many more improvements come under his observation. There is something contagious about this matter of improvement and progress with reference to farm life. The advent of the automobile, or rather its development, has had a most intimate connection and a direct effect in the matter of road improvement. This has brought still other advancement ideas, and in some counties a greatly awakened interest in the schools has resulted. The interest has been manifested particularly in the improvement of buildings and grounds, and it has naturally followed that teachers and pupils have taken a greater interest and there has been a higher tone and quality to the work done. This is an advance in which Morgan county cannot truthfully be said to have kept pace with a number of other counties.

There are a number of school buildings in the county which today need extensive improvements or absolute replacement. There are still more schools which need better equipment and better grounds, and it is only a question of time until the directors and tax payers who are most directly interested in these schools will feel the general effect of the tendency there is now to better equip country schools and make them more attractive. The county is a little slow in this matter but will surely "land" just as it has in the matter of road improvement. It must be remembered, too, that Morgan county was several years behind other counties in reaching the maximum of land prices and was far behind other counties in the number of cars owned by its farmer population. But these distances were latter overcome and give reason to believe that in the matter of schools the result will be the same. It may be argued that just as good and effective work can be done in the plain old-fashioned box of a country school, with not much attention paid to the surroundings, as can be done in the more modern type of building, pleasantly located. The answer is that that is possible but not probable, and experience both in the city

and the country has shown that the best work is done where the equipment and the surroundings are the best.

CITY SCHOOL AFFAIRS.

The new board of education will hold its first meeting tomorrow night. It isn't exactly proper, either, to call it a new board, because the personnel is just the same as prior to the last election, save for the fact that Mayor-elect Rodgers will be the presiding officer. Mr. Rodgers has made no extended statement with reference to his attitude on board of education affairs other than the suggestion that it is not his intention to try to dominate the board. So far as known, Mr. Rodgers has given no expression either as to his opinion of Supt. Charles E. Collins, but it does not seem at all unlikely, in view of the high esteem in which Mr. Collins is held by at least two members of the board, that he will be re-elected superintendent of schools for the coming year.

The Journal is not familiar enough with the Collins' work to say that he is or is not the best superintendent who could be secured at the present salary, yet at the same time it is probably true that the board will act wisely if he is elected for the coming year. It is certain that Mr. Collins has not made a failure of his work, and it is also true that there has been harmony between the superintendent of schools and the principal of the high school, something very desirable and something very rare in the history of the Jacksonville public schools. It is also a fact that it is a very unfortunate thing for the school system to be continually changing superintendents. It would be far better to have a superintendent whose ability was not all that could be desired, rather than to keep changing from year to year. No superintendent of schools can do his best work in one or two years' time; it takes a longer period than that for the head of the school system to lay his plans and work out the details of the various ideals that he hopes to accomplish.

The hope has previously been expressed in these columns, and it is an important one, indeed, that whatever the board does in the conduct of the schools this year, that there be harmony of action. There should be a give and take spirit manifested, and every member of the board should seek not only to secure the best thing in the school system, but also to work with his associates in securing these things.

The time should come when politics has nothing to do with the school system or with the election of board members. This statement is made advisedly and should not be considered as in the line of repentance. The term politics is a broad one and does not refer simply to the Republican or the Democratic party. Sometimes the shrewdest of the politicians are those who argue against bosses and politics generally. Occasionally political methods result in the choice of efficient board members, witness the recent election, but as a rule some other action should pertain to school affairs. But enough of the last election—that is history now, and the thing which confronts the board of education is to forget petty differences and to look forward in a broadminded way toward the development of the school system.

As suggested, it would be a desirable thing, indeed, for the schools if the time should come when the people sought out candidates for election to the board rather than for the candidates to conduct campaigns to secure their own election. Just what the difference is between the supervision of a school system and of educational institutions not supported by public tax is difficult to show. One never hears of a man seeking to be the trustee of a college or university; instead, men or women are sought out for these positions and take them somewhat reluctantly, yet when once taken, the average person is willing to devote considerable time and thought to the institution with which his name is associated, and usually in taking such positions he knows that financial contributions will also be expected. And while men and women take these positions with reluctance, it is true also that they feel honored by them and earnestly desire to measure up fully to the honor and responsibilities of their trusteeship. Certainly the fact that members of the board of education receive a salary of \$10 a month and have as a perquisite of office free telephone service would not be sufficient alone to account for this difference in feeling locally.

One great difference between public school management and that of other institutions is in the power and authority granted to the superintendent of schools and to the president of a college. When the day comes that the superintendent of the Jacksonville schools is the superintendent in fact so far as all educational matters are concerned, and is held directly responsible for the grade of work done and for the efficiency of the teaching force, and when also a board membership is devoid of all salary and all perquisites, then probably will be the day that politics will have nothing to do with the board.

It has been said before and it is worth repeating, that for years past there has not been enough publicity in board of education affairs. Many of the important questions which come before the board for solution are settled in private caucuses and simply the vote recorded in open session. The board has been derelict in giving no publicity to its expenditures. Seventy to ninety thousand dollars of the people's money is spent each year without any public accounting. The law requires a publication of the board's financial statement, but the Jacksonville board has not made such a showing

for a long period. It would be of advantage to the board and of interest to the people, creating a closer bond of sympathy between them, if an itemized statement of expenditures were made each month. In order to make this possible and without expense to the board, the Journal hereby offers to publish each month without charge a complete itemized statement showing the amount of each warrant drawn and the cause of the expense. If the board will supply such a list the Journal as stated, will publish the same for the coming year without any charge for the service.

It is certainly desirable that the board take early action not only upon the selection of superintendent of schools but also upon the choice of teachers. Very often in the past the appointments of teachers have not been made until just a few days before the close of the school term. This delay in the matter of appointments is unfair to the teachers, as if they are to lose their positions they do not have a good chance of securing others. Appointments in practically all of the county schools have already been made, and in a good many cities in this section of the state announcement of the teaching force has already been made. It is admitted that there are some disadvantages in early announcement of appointments, but these are outweighed by the advantages.

CITY GOVERNMENT

It is said that members of the new city council have agreed upon the department which each shall head and have also come to an understanding with reference to at least a part of the appointments. Nevertheless, neither Mayor Rodgers nor any of the commissioners were willing yesterday to make any statement in this regard, as they seemed to think it proper that any such agreement should obtain publicity only in the regular routine of business—that is, after the council has formally organized at the first meeting, which is to be held tomorrow.

Asked about these questions and some others pertaining to city affairs, Mayor Rodgers shook his head no, but said: "We're not talking about any of these things but you can say this, that all the commissioners are of absolutely one mind with reference to the enforcement of law. I do not mean that any millennial days are to be expected, but the council is an absolute unit in the wish to see a period of strict law observance—that is, of an enforcement of those measures which the majority of the people have clearly declared reflect their sentiment. We do not believe, either, that there will be much trouble in bringing this to pass, not only with reference to the liquor question but in the case of any other measures about which there has been any possible laxity. We, as I say, are strictly in accord in this regard and so the question as to whom the work of enforcing these laws is delegated is of secondary importance. We feel that what the people want is a clean administration in the matter of law enforcement, and just how or through whom this is accomplished is a minor matter in comparison with the general desired result."

"For instance, it is possible that men might be chosen for various departments who were not considered the wisest choice by some commissioners, and who were opposed by a great many people, yet there should be no spirit of disapproval manifested at this time, and the expressions of disapproval should be heard only after there has been a failure to carry out the announced policy of meeting the wishes of the majority of the people."

The mayor-elect went into no details as to just what he meant, but it is certainly true, that no matter what are the appointments for heads of departments, the people as a whole should not be expected to be greatly pleased or displeased at present. In other words, the present city council will not be entitled to applause or condemnation until after they have been in office for a considerable time. "By their works ye shall know them" is probably a good text for the public just now, and after the record of some months has been written the people will know whether or not the present council has a sincere desire to carry out the general will of the people.

All of the council members have gone on record as earnestly desiring to serve the interests of the majority of the people and have fearlessly reminded the people that if they do not do so, that the commission form of government furnishes them ample protection in its recall provisions. With equal candor they state, too, that if in the matter of appointments they make mistakes, that a few months' time will develop this fact and that the mistakes will be corrected by the naming of other men who are in accord with the ideas of the administration.

FOR SALE—A brand new \$250 spider phaeton, never been hitched to; at a bargain at Killian's, East Morgan street; the carriage and auto painter.

SCOTT'S SPECIAL ANNOUNCEMENT
Announcement of the attractions for the entire week at Scott's theater and Hippodrome appear on page 6 of this issue. A great program for each and every day has been arranged.

ALWAYS CASH FLORETH COMPANY ALWAYS CASH

Misses Margaret Strandberg and Aileen Bauer have received gold medals and certificates from the Remington company for efficiency in work, the former in shorthand and typewriting and the latter in stenotype.

Miss Jessie L. Clark of the Ayers National bank will leave today for the home of her mother, Mrs. S. A. Clark in Crossville, White county, for a rest and visit of three months; when she will return to resume her duties in the bank.

The many friends of Mrs. John J. Thompson will be glad to learn that she has returned to her home in South Jacksonville after spending the winter with her sister, Mrs. Philip Kemp at Albert City, Iowa.

W. H. and E. H. Brazelton, R. J. Morrison, E. W. Klemens, Henry Topp, Owen Belt, Carl Kessler, Robert Grillon and W. Ledbrook were all over yesterday from Quincy to take in the athletic events.

Mr. and Mrs. F. H. White of New York City will arrive in the city Monday for a visit at the home of his sister, Mrs. Charles R. Cox of 629 South Diamond street. Mr. and Mrs. White are on their way to the San Francisco exposition and will go via the Grand Canyon, Yosemite and Yellowstone park. They will also visit with Mr. White's mother at Blaine, Wash.

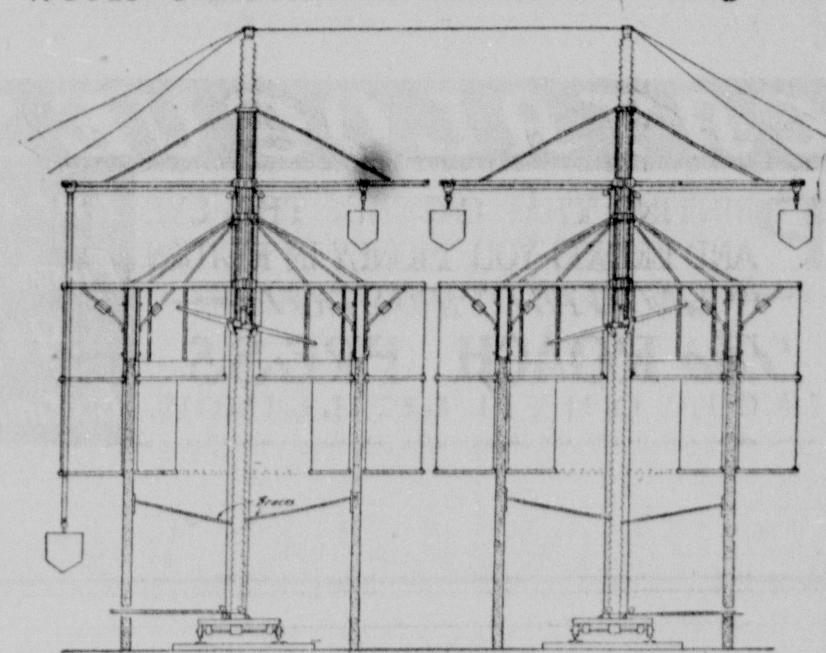

A former friend of L. P. Allcott yesterday brought him a copy of the Jacksonville Journal dated Aug. 19, 1892, which has been found in looking through some old documents. The paper was of interest to Mr. Allcott because it contained the account of his wedding which occurred just twenty-three years ago. Friends of Mr. Allcott will remember that it was a double event, when he and A. M. Upham married the Misses Matthews.

FUNERALS

Mitchell.

Funeral services for Melissa Udell, the infant daughter of Mr. and Mrs. T. E. Mitchell were held at the family residence, 343 North West street at 2 o'clock Saturday afternoon and were conducted by Rev. Percy W. Stephens, pastor of the First Baptist church. The singing of hymns suitable to the occasion was by Miss Gertrude Richardson and Mrs. Geo. F. Stoldt. The flowers were cared for by Miss Dorothy Mitchell and Miss Cecile Fanning. Burial was in East cemetery.

Woman's College.

June first is commencement day at the Illinois Woman's college. The commencement speaker will be Dr. Claudius D. Spencer, Kansas City, editor of the Central Christian Advocate. Baccalaureate exercises, May 30, will be held in Grace M. E. church and the speaker will be Rev. Thomas Ewing, pastor of the First Methodist Episcopal church of Springfield, Illinois. The annual reunion will be held May 31. Eleven students will receive the Bachelor of Arts degree at commencement time and the following is a list of the candidates for graduation from

the various departments of the institution:

Bachelor of Arts.

Audrey Berryman, Jacksonville.
Winifred Burmeister, Red Wood Falls, Minn.
Irene Crum, Springfield.
Helen Dinsmore, Jacksonville.
Louise Harries, Mattoon.
Feril Hess, New York.
Helena Munson, Rushville.
Mary Louise Powell, Jacksonville.
Lucile Reinbach, Jacksonville.
Josephine Ross, Jacksonville.
Effie Theobald, Jacksonville.
The following are graduates from the College of Music:

Voice.

Ima Berryman, Jacksonville.
Expression Department.
Corinne Hughes, Waverly.
Art Department.
Dorothy Stevens, Rock Island.
Home Economics.
Winifred Burmeister, Redwood Falls, Minn.
Josephine Ross, Jacksonville.
Effie Theobald, Jacksonville.

Academy.

Jessie Clem, Christopher, Ill.
Lena Johnson, Jacksonville.
Nellie Lindley, Peatonica, Ill.
Vivian Newman, Danville.
Bessie Seward, Watseka.
Lila Seymour, Franklin.
Kathleen Stice, New Berlin.

Jacksonville High School.

Seventy-one members compose the senior class of the High school and commencement day will be Thursday, May 27. The Baccalaureate sermon will be given by Rev. Myron L. Pontius Sunday, May 23, at the Central Christian church. The senior and Junior reception will be Monday, May 24. As previously mentioned Frank Merrill is valedictorian of the class. The seniors are: Frank Merrill, Violet Struck, Edna Harney, Mary Moxon, Capitola Beebe, Wells Walker, Clarence Spaulding, Helen Sorrells, Genevieve Halthman, Abner Johnson, Grace Wood, Lucille Speery, Ruth Hembrough, Helen McDonald, Edwin Smith, Henry Ricks, Clarence Martin, Wallace Hembrough, Eylla Sibert, Alma Hembrough, Kathryn Milburn, Dorothy Weber, Elsie Reeve, Carrie Mackness, Maude Brown, Velma Whitlock, Charles Peak, Ida Ferreira, Norma Dawson, Nora Jordan, Mary Titus, Flossie Kellogg, Weir Smith, Julian Pyatt, Andrew Cobb, Nelle Clampt, Hazel Moxon, Elsie Todd, Richard Reynolds, Fred Mayer, Helen Harney, Edgar Walt, Eula Harshaw, Ruth Hackett, Edwin Pyatt, Frank Caldwell, Floyd Williamson, Horace Swain, Mabel Peterson, Grace Hoffman, Clarence Rataichak, Harold Swain, Grace Gibson, Worthington Adams, Nettie Tendick, Irene Black, Ruth Carlson, Harold Wright, Leonora Wiegand, Warren Maddox, Pauline McMurphy, Dorothy Black, Marie Corrington, Audrey Larson, Paul Strawn, Dale Boxell, Paul Wells, Rena Rexroat, Vida Dobson.

State School for Deaf.

Sixteen students will graduate from the State School for the Deaf this year. The exercises will be held May 27, at 2:30 o'clock. Hon. Fred J. Kerns, president of the State Board of Administration will be the speaker. School will close June 9. The annual lawn picnic will be May 28. Much interest is attached to the three days meeting of the Alumni of School and Illinois Association of the Deaf commencing June 11. The following are the graduates:

Floraine Cley, Chicago.
Joseph E. Crimmins, Chicago.
Frederick R. Degener, Chicago.
Marie Deja, Peoria.
John Dobbs, Herrick.
Wilbur W. Farris, Jacksonville.
Frank E. Friday, Chicago.
Otto Joseph Kader, Taylorville.
Florence H. Miller, Carbondale.
Pauline Obermiller, Mt. Pulaski.
William Claude McSparin, Stone Fort.
Emma Prusakiewicz, Chicago.
William Riordan, Ottawa.
Ruth Robb, Norris City.
Jessie L. Stevens, Smithfield.
Lily M. Valentine, Red Bud.

State School for Blind.

Commencement exercises at the State school for the Blind will be held Tuesday, June 1 and the commencement speaker will be Pres. Fred J. Kerns of the State Board of Administration. There will be seven graduates as follows:
Fred Foster, Bradford.
Earl Knowles, Decatur.
Howard Collins, Union.
Ellis Horton, Dixon.
Marie Schaffer, Decatur.
Myrtle Ernst, Peoria.
Bertha Quilley, Marion.

BOMBARDMENT WITHOUT ANY APPARENT RESULT

French State Shelling of Dunkirk Is Without Importance.

Paris, May 1—(10:40 p. m.)—The following official note was issued regarding the shelling of Dunkirk by the Germans:

"The bombardment of Dunkirk by heavy artillery is a new proof that the Germans have not been able to pierce our lines; nor have they obtained by it any appreciable result. They are striving to impress neutral opinion by these manifestations, without military efficacy. From the viewpoint of the development of the operations this bombardment is without importance, its effect is entirely localized to the destruction of a few houses and the killing of peaceable inhabitants of Dunkirk. New victims of German barbarity are the only results obtained by the enemy. The position of the armies confronting each other in Belgium is without any modification whatever."

ENTERTAIN AT DINNER.
Dr. and Mrs. C. H. Rammelkamp entertained at dinner Saturday the following superintendents, principals and teachers from the schools at the meet: Roscoe G. Linder, Arenville; Supt. Scheid, Greenville; Charles A. R. Stone, Jacksonville; Robert G. Smith, K. C. Zehren, White Hall; L. W. Ragland, Miss Green, Mr. Colbert, Waverly; J. R. Bouton, Vermont; W. A. Butler, Table Grove; I. B. Potter, Shelbyville; Harold Brazelton, Quincy; Chester S. Berry, Pleasant Hill; H. H. Strauch, G. G. Baker, Beulah Wood, Petersburg; W. B. Rose and J. W. Byrding, Pawnee; Harris M. Robertson and Mr. Hadaway, Chapin.

PALM BEACH SKIRTS PERCED REASONABLY AT HERMAN'S.

AUTO AND BUGGY COLLIDE.

A buggy belonging to George Gunn and an auto driven by Verne Keston of Arenville collided about 5:30 o'clock Saturday afternoon at the corner of West College avenue and Prospect street. George W. Daniels, Jr., of Petersburg, who was in the buggy with Mr. Gunn, received an injury to his ankle, though Leslie Clemmons of Milton, Pike county, escaped without injury. A front wheel of the buggy was demolished and the car was slightly damaged. The accident happened as the boys attempted to turn off West College avenue and the auto struck the vehicle from behind.

All who want best bargains in spring suits and furnishing goods will do well to call on Knoles.

MAY DAY BREAKFAST FOR MISS ALICE WADSWORTH.

Twelve especial friends of Miss Alice Wadsworth were guests Saturday at a May morning breakfast for the bride-to-be at the home of Miss Elson Barnes, 843 West State street. For each guest there was a May basket of spring flowers and in the center stood a large May basket with lilacs, tulips and spiraea, giving the table an appearance altogether beautiful.

CORNS CAN BE REMOVED.
If you will only use Gilbert's Corn remedy.

ATTENDED AGENCY MEETING.
Mr. and Mrs. Charles J. Rataichak returned Saturday evening from St. Louis where they attended an agency meeting of the Equitable Life Insurance Co. There were present two hundred agents from several states and the meeting was accounted highly successful.

ELECTRICAL SHOW AT UNIVERSITY OF ILLINOIS

"Biggest and Best" is Motto of Engineering Students at Annual Exhibit—Feature Exhibit Will be Shown Illustrating Panama Canal.

(By P. S. Biegler, Department of Electrical Engineering, University of Illinois).

Following a custom established at the University of Illinois in 1907, the electrical engineering students have this year produced the "best and biggest electrical show" yet given. This year, in addition to the Electrical Laboratory, the old Armory was used for exhibition purposes, and thus a larger crowd could be handled more comfortably and the exhibits were increased in size and number. The total attendance during the three days, April 8, 9 and 10th, was about five thousand, and the number of exhibits reached one hundred and eight.

If there is any similar electrical show given by university students anywhere in the country which approaches, in size and quality, that given by the Illinois men, the writer is not aware of it. Certainly the show this year compares very favorably with those given in large cities. Considering the fact that the event is managed, financed and executed wholly by the students, the success of the undertaking seems the more remarkable.

Among the exhibits were a great number of considerable educational value, others were rather demonstrations of rare electrical phenomena, not usually known outside of electrical and physical laboratories, and still a third class included industrial exhibits of practical interest to visitors at the show.

Among the feature exhibits of pure educational character two of these perhaps, represented the greatest amount of labor in preparation, a miniature Panama Canal, and a model electric railway system. An excellent notion of the canal construction and operation could be derived from the student demonstrations, showing the passage of the boats from one ocean through the locks and lakes, Culabra cut, lowering locks and various stages of the trip to the other ocean. The locks were practically water-tight and showed the raising and lowering of the boats very nicely. Towing engines, through railway service, and ornamental electric lighting made the miniature canal well worth the attention it received.

In the same class with the Panama Canal should be mentioned the model electric railway system, a partially shown in Fig. 1. This exhibit was prepared with considerable elaboration, showing the details of power plant arrangement, transmission line construction and track work. As shown in the picture, the scheme also included a round house and, finally, an operating board from which all train movements were controlled electrically. Other exhibits which moved in the same way were illumination by discharge of electricity through gases or vacuum tubes, the effect of different illumination of voice currents in a telephone transmitter circuit by means of an oscillograph, etc.

Of those exhibits representing interesting electrical phenomena should be mentioned the starting of an automobile from a distance by means of a wireless outfit. This is, perhaps the first time such a thing has ever been done, and was the inspiration of Mr. I. W. Flisk, of the Electrical Department of the University. A receiving station was erected on the machine and the starting circuit of the automobile controlled in this way. High voltage, high frequency currents were also much in evidence, produced by a Tesla coil. Currents which at the usual frequencies would be fatal, were passed through the bodies of visitors as shown by the lighting of incandescent lamps put in series through the hands of the "electrocutees." Many other "stunts" were exhibited to the great wonderment of the spectators.

A feature industrial exhibit was a small electric lighting plant for a country home, shown in Fig. 2. This plant consists of gasoline engine and electric generator, with arrangement for starting the engine from any of the electric fixtures on the premises, merely by turning on a lamp. The starting scheme is the same as that used on automobiles the turning on of a lamp simply replacing the pressing of the starting button or pedal.

A great variety of domestic electric appliances were exhibited and the most modern electric lighting units. The management had little difficulty in obtaining representation from the leading electrical manufacturers of the country on account of the success of former Illinois electrical shows.

No little credit is due to R. L. Hermann, General Manager, and C. F. Hood, Business Manager, for the organization of the students and the business like manner in which the show was planned and carried on.

Men who wear Munsing Union suits know the comfort afforded. This garment is one of many desirable styles sold by FRANK BYRNS.

BAD STOMACH TROUBLE.
Yields to Delicious Vinol.

Shreveport, La.—"I had a bad stomach trouble for years and became so weak I could hardly walk or do any work. My appetite was poor, my food would not digest, I bloated and was very weak and nervous. I tried many remedies without help. I saw Vinol advertised and tried it, and now my stomach trouble is completely cured and I am well."—E. L. Marshall.

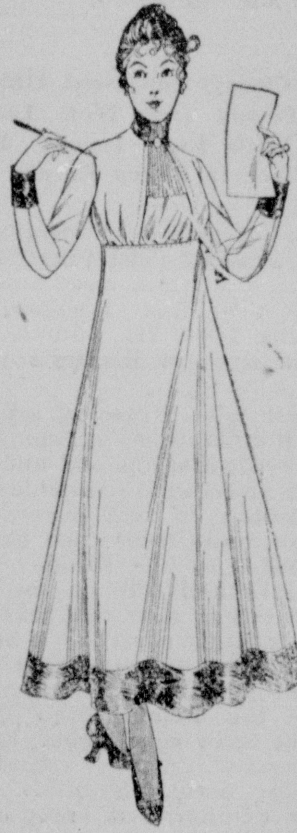

Vinol is guaranteed to tone up the tired, over-taxed and weakened nerves of the stomach and create strength.—Lee P. Alcott, druggist, Jacksonville, Ill., and leading drug stores everywhere.—Advertisement.

ILLINOIS COLLEGE WINS DUAL MEET

DEFEATS BRADLEY POLYTECH-
NIC 39 TO 70.

I. C. Men Clearly Outclassed Athletes
From Peoria and Took Annual
Meet With Ease—Locals Took
First Place in Eleven Events.

Illinois college had no trouble in
defeating Bradley Polytechnic Insti-
tute in the dual track meet held on
Illinois field Saturday morning, the
points being 70 to 39. Illinois tak-
ing eleven first, to Bradley's three
firsts.

Campbell, who is running his first
year on Illinois team, distinguished
himself by winning the one hundred
yard dash and the 220 yard dash in
easy fashion. In both events he
could have made faster time had he
been pushed by the Bradley run-
ner. Barnes and Hill in the pole
vault had things their own way and
settled a friendly rivalry at a height
of 10 feet. Campbell also won third
first when he cleared five feet six
inches in the running high jump
and might have gone higher had it
been necessary. Wilson, captain of
the Illinois team, lead his team
mates by winning first in both the
440 and 880 yard runs.

Frisbie contributed his share by
winning the 120 yard hurdles, the
200 yard hurdles and the running
broad jump. In the 120 yard hurdles
he tripped on the last hurdle and
fell headlong on the track but
scrambled to his feet and finished
ahead of the Bradley hurdler. That
fact accounts for the slow time in
that event. Urbaine in the discus
failed to come up to expectations
and lost this event to Woodrow of
Bradley by a few inches. Land in
the mile run through an error in
instructions given to him in running
this event was beaten by Wallace
of Bradley though the latter is not a
better man than Land.

The relay race proved an easy
event for Illinois. Alford the first
runner secured a small lead which
Rendleman increased slightly. Fris-
bie lengthened by several yards and
Wilson romped home the winner as
he pleased. Woodrow of Bradley
seemed to be the main strength of
his team. Fetzer and Strauch were
their other largest point winners.

The following were the officials:
Referee and starter, Harry L. Gill.
(U. of I.); Track judges, R. H. Tan-
ner, George O'neal, P. F. Whisler;
Field judges, Justus Wright, Claren-
ce Cunningham and Ray Brace-
well; Clerk of course, Clay Apple;
Timers, James Vosseller and James
O'Keefe and Irvin Potter.

Summary.
The summary of the meet follows:
100 yard dash—Campbell (Ill.)
first; Strauch (Bradley), second.
Time 10 3-5.

Pole vault—Barnes (Ill.) first;
Hill (Ill.) second. Height, 10 feet.
Shot put—Petzer (B.), first;
Woodrow (B.) second. Distance, 37
feet, 10 inches.

Discus—Woodrow (B.) first; Ur-
baine (Ill.) second. Distance 71
feet 13 inches.

Javelin throw—Alford (Ill.) first;
Fetzer (B.) second. Distance, 129
feet 74 inches.

High jump—Campbell (Ill.) first;
Fetzer (B.) second. Height, 5 feet
6 inches.

120 hurdles—Frisbie (Ill.) first;
Strauch (B.) second. Time 17 1-5
seconds.

220 hurdles—Frisbie (Ill.) first;
Strauch (B.) second. Time 28 2-5
seconds.

220 yard dash—Campbell (Ill.)
first; De Less (Ill.) second. Time
23 3-4 seconds.

440 yard dash—Wilson (Ill.) first;
Heitule (Ill.) second. Time 54
seconds.

Running broad jump—Frisbie
(Ill.) first, distance 20 feet 13 in-
ches; Fetzer (B.) second, distance
19 feet 34 inches.

880 yard dash—Wilson (Ill.)
first; Wallace (B.) second. Time 2
minutes 5 1-5 seconds.

1 mile run—Wallace (B.) first;
Land (Ill.) second. Time 4 minutes
49 3-5 seconds.

1 mile relay—Won by Illinois (Al-
ford, Rendleman, Frisbie, Wilson).
Time 3 minutes 43 seconds.

Oatmeal For the Bath.
If the skin is rough and irritated by
heat try the oatmeal bath. Make a
number of cheesecloth bags four in-
ches square and fill them loosely with
the following mixture: Five pounds of
oatmeal, one pound of Florentine orris
root (powdered), one pound of almond
meal, half pound castile soap scraped
fine as powder. This makes a large
quantity, but is cheapest when made
in these proportions. One of these
bags thrown into the warm plunge
bath is most comforting and makes
the skin soft and white.

Brush and Comb Set.
A compactly built brush and comb
set for traveling has recently made its
appearance in the shops. Constructed
of white celluloid, it has the back of
the comb, which is shorter by about
two inches than the average size, hinged
together with narrow row of bris-
tles. When not in use the two toilet
articles can be laid together flat and
tucked into a pocket or compartment
of the traveling case. The combination
brush and comb is particularly con-
venient for train use, as it can be car-
ried in the pocket.

FOREIGN CORRESPONDENCE

(By The Associated Press.)

Melbourne, Australia, April.—(Cor-
respondence of The Associated Press.)
—Some idea of the part of Australia
as a component of the British Em-
pire is playing in the war as a pur-
veyor of supplies of a military kind
for herself, Great Britain and the
Allies may be gathered from the fol-
lowing facts and figures:

The Defence Department has re-
quisitioned the entire output of the
various woolen mills throughout the
Commonwealth for an indefinite time
and the mill owners and managers
are undertaking to do all in their
power to facilitate the manufacture
of the cloth and garments required
by the Department. Besides sup-
plying each Australian soldier on ac-
tive service with a uniform when he
embarks on a troopship the Depart-
ment engaged to supply him with a
fresh uniform every three months
while is at the front. At present the
superintendent of army contracts,
Captain J. C. Ormiston is requiring
at once 1,112,000 yards of flannel
to say nothing of 200,000 woolen un-
dershirts and 220,400 pairs of draw-
ers of same material. Australia be-
ing a country which singularly enough
exports immense quantities of
raw wool but has few woolen or other
textile establishments as yet, the
strain upon the existing mills is en-
ormous. Meantime a representative
of the federal government has placed
orders with a single woolen manufac-
turing firm in New Zealand for 96-
000 navy sweaters, 212,000 knitted
drawers, 200,000 knitted shirts,
240,000 pairs of socks and more
than a million yards of flannel. It
is doubtful, however, if all the wool-
en mills in New Zealand can cope
with this order inasmuch as at pre-
sent they are doing their utmost to
keep the Dominion contingents sup-
plied with clothing of the above de-
scription.

In Sydney the whole of the mutton
in cold storage within the metropoli-
tan area—a supply variously es-
timated as numbering between 250-
000 and 300,000 sheep—has been
taken over on behalf of the Imperial
authorities at prices already fixed at
from 8 to 10-12 cents a pound by
agreement between the owners and
the home and the overseas authori-
ties. Although the New South Wales
government is simply acting as the
agent of the British government, this
is the biggest transaction of the kind
ever been carried out in Sydney.
The State Government, is acting
under a direct request from the
government in England which was
recently translated in an act of
Parliament. The first consignment
will consist of about 9,000 refrigerat-
ed sheep, but much heavier consign-
ments will be forwarded before long.
The Imperial Government has engaged
to provide the transportation.

Meantime the state abattoirs at
Homebush, near Sydney, will shortly
be in full swing and sheep will be
slaughtered at the rate of 6,000 daily.
The New South Wales authorities
have been advised that the demand
for the British army and navy is
practically limitless.

A shoe company in Melbourne is
negotiating with the Russian Govern-
ment to supply it with a million and
a half pairs of soldiers' shoes within
12 months at the rate of 120,000
pairs a month. The contract, if en-
tered into, will involve nearly \$8-
000,000. The matter is not yet set-
tled, however.

Paris, April.—Correspondence of
The Associated Press)—A wounded
soldier in the Nantes hospital tells
how King Albert saved the life of
a French officer.

During a furious bayonet charge
a lieutenant ventured too far into
the German lines and was brought
down by a rifle shot. He was griev-
ously wounded and evidently was
thought by the Germans to be dead.
The scene of the conflict shifted and
though the officer was very weak
from loss of blood he dragged him-
self out of the range of fire, and
then he fainted.

On regaining consciousness he saw
two Belgian officers beside him, one
with a lantern and the other dress-
ing his wound. They picked him up
carefully and carried him to a mo-
tor car in waiting in the road. Arriving
at the field hospital near the general
headquarters of the Belgian army he
got a better view of the two officers.
One of them he recognized, saluted,
and started to speak but the King
bushed him.

"All right my brave hero," he
said, "save your strength; the world
can't afford to lose men like you."

London, April.—(Correspondence
of The Associated Press)—That the
authorities have a very effective sys-
tem of anticipating the visits of Zepp-
pells is evident. On the night be-
fore the visit over Newcastle the
lights were extinguished for the first
time in several of the towns near
where the aerial visitor dropped his
bombs the following night. On the
afternoon of the 15th of this month
the special constabulary in London
were notified at four in the afternoon
to be on duty that evening and later
a Zeppelin came the nearest to Lon-
don that any of the German air
craft have been. Atmospheric con-
ditions must be favorable for the Zepp-
pells and it is probable that either
from Holland or the sea patrol or
both the authorities get their warn-
ings that the airships may be expect-
ed. Earlier in the war there was
some anxiety about the probable re-
sults of these visits whereas now
there is no excitement and no fear
expressed in any quarter.

Liverpool, April.—Hubert William
Estey, a student and Harry Tanok, a
chauffeur, a pair of well set up young
Americans who arrived in Liverpool
on the steamer Devonian from Bos-
ton on April 1 and immediately en-
listed in the motor transport divi-
sion of the Army Service Corps, were
fined 60 cents each in a court here
as unregistered aliens in military
area. The fine was merely nominal
and imposed solely in order to make
no exceptions to the enforcement of

Orth. Time—2:02.

St. Louis, 9; Cincinnati, 5.
St. Louis, May 1.—Umpire Rig-
ler and Manager Herzog of Cincin-
nati fought on the local National
League field and later caused each
others arrest on charges of peace
disturbance.

In the seventh inning Huggins of
St. Louis put Leach of Cincinnati
out at second by the hidden ball
trick. Herzog disputed Rigler's de-
cision and was ordered off the field.
A few minutes later he returned
and, according to Rigler, called the
umpire a vile name. Rigler tore
off his mask and struck Herzog in
the face with it. The two clinched
and pummeled each other until
twelve policemen and their fellow
players separated them. Herzog was
taken to the club house with a
bleeding nose and discolored eye. Rig-
ler showed few marks of the en-
counter. St. Louis won from the
visitors 9 to 5.

Score: R. H. E.
Cincinnati 103 010 000—5 7 1

REPORTS MILITARY ACTIVITY
ON AUSTRIAN SIDE OF FRONTIER

VENICE, Italy, via London, May
2.—(5:35 a. m.)—A despatch from
Udine, Italy, reports active military
preparations on the Austrian side of
the frontier. Trains of heavy artil-
lery, proceeding by night are said
to occupy commanding positions.
Night traffic in the districts of Gor-
itz, Gradisca, Monfalcone and Tol-
mein, all in Austria, is prohibited
without special authority.

It is stated that recruits from the
southern part of the monarchy are
being concentrated at Lubiana.
The law. But it developed that the
adventurous pair had stated that they
were Canadians when they took the
oath of allegiance to the King. This
constitutes false attestation, so ac-
cording to the Chief Constable it is
likely they will not be allowed to
serve.

NEW ELECTION LAW HAS BEEN DRAFTED

WILL BE READY FOR CONSIDERATION THIS WEEK.

Measure to be Presented Before Illinois Assembly Would Simplify Election Machinery—Fewer Elections Proposed.

Springfield, Ill., May 1.—A comprehensive election law, designed to supersede practically all the numerous acts now embodied in the statutes, is in course of preparation and probably will be ready to lay before the general assembly next week.

The new bill is generally speaking, a codification of the present election laws. As few changes as possible were made in the substantive provisions of the present election laws by its drafters. The election laws are now scattered through numerous independent enactments passed at different times. Some of the latter laws conflict with the earlier causing much confusion.

The attempt has been made to bring together the present laws under one act. The tentative bill has been classified according to the subject matter and all the election laws relating to each particular subject have been covered into the subject dealt with under that head. Roughly, the classification made is as follows:

Points in Proposed Law

1. Time of holding elections and primaries.
2. Tenure of all offices (with a few exceptions) including state, judicial, district, county, town and road district, city and village.
3. Resignations, vacancies, special elections and special primaries.
4. Notice of elections and primaries.
5. Election precincts and places of holding elections and primaries.
6. Officers of elections and primaries.
7. Nominations of candidates (a) by primaries; (b) by convention, caucus, meeting or by petition.
8. Ballot boxes, booths and supplies.
9. Ballots, stationery and instructions.
10. Qualifications of voters.
11. Registration of cities having a board of election commissioners.
12. Registrations in places not having a board of election commissioners.
13. Conduct of elections and primaries.
14. Canvass of the ballots at elections and primaries.
15. Canvass of the returns and declaration of the result.
16. Election contests.
17. Penalties.

Generally speaking, the proposed act covers the election of candidates for state, congressional, senatorial, county, sanitary district, city, village and incorporated town, town and road district officers. It does not cover school elections.

Primary Law Included.

The present primary law is written into and forms a part of the bill. By writing this bill in this way much unnecessary repetition was done away with, at the same time preserving the present primary act without essential change in its principles. If any changes are to be made in the principles of the law, such changes will undoubtedly be taken up by the joint elections committees of the senate and house when they consider the tentative draft before the introduction of the bill.

The essential changes made by the tentative draft are found in articles 1 and 2, relating to the time of holding elections and the tenure of public officers, respectively. The idea was to make as few elections as possible. This, of course, was a difficult task. Tentatively the measure has been worked out in the following way:

(A) A general state and county election must be held in November in the even numbered years. At this election all the officers who are now required to be elected in November will be elected. No additional officers are required to be elected at this election.

(B) A municipal election must be held in the spring in the odd numbered years, the date not yet being fixed upon. No municipal election will be held in the even numbered years.

Fewer City Elections.

The city and village and the town election will be held on the same day, and whenever practicable at the same polling places by the same judges and clerks. This was a very difficult proposition to work out, as the precinct lines for city elections cannot always correspond with precinct lines for town elections. In fact, in the majority of cases they do not. Attempt has been made to provide the necessary machinery to accomplish this purpose.

(C) The judicial election must be held in June.

(D) An election for county commissioners must be held in November of each year. This applies to counties not under township organization.

(E) A general primary must be held each even numbered year. The presidential and state and county primaries are combined, the date date not yet being fixed.

(F) The municipal primary must be held in the odd numbered years, the date not yet being fixed. In brief, the big idea is to have a general state and county election in the even numbered years and a general municipal election in the odd numbered years.

Tenure of Office Changes.

To carry out his plan the tenure of office of a few officers was required to be changed. Had the municipal election been fixed for the even numbered years the tenure of nearly all local municipal officers would have been changed, but by fixing the municipal elections for the odd numbered years only a few were affected. Those affected are:

Supervisors. The terms is now two years, one half retiring each year. With elections only every two years two schemes are proposed. (1) The terms of all supervisors to expire in 1917 and the whole board to be elected for two year terms, or (2) the supervisors elected in 1917 to be classified into two classes, with four year terms, one to be elected each two years.

Town clerk, assessor and collector: Those now in office to hold until 1917 and thereafter to hold for two year terms.

Highway commissioner: Two plans are proposed: (1) Terms of office to expire in 1917; at the election in 1917 one commissioner to be elected for two year term, or (2) terms of office to expire in 1917; at the election in that year three commissioners to be elected for two year terms.

Alderman: To be elected for four year terms.

Village trustees: To be elected for four year terms.

Special elections are to be required only in cases where the constitution requires that a special election must be called, except for alderman, where a special election must be called. Vacancies in all other offices for the full unexpired term must be filled by appointment.

Vacancies in all county offices can be filled by appointment, except possibly county clerk, county judge, state's attorney, clerk of the criminal court in Cook county, clerk of the superior court of Cook county.

Vacancies in all municipal offices except alderman, may be filled by appointment.

Other Minor Changes. Other minor changes have been suggested. In some places verbal changes have been made for the sake of clearness. Some defects in the present election machinery have been remedied.

The registration law for cities having a board of election commissioners is being written in Chicago and when written will be incorporated as a part of the bill. It is understood that a corrupt practice act will be introduced, but it will not form a part of this bill.

The big bill was prepared by Charles Woodward of Ottawa, former assistant attorney general. Mr. Woodward worked all the past winter on the measure. The idea was laid before him last fall, and he worked it out, codified the various laws and drafted the comprehensive bill covering the entire subject.

The measure will first be presented to the joint elections committees of the senate and house, who will consider it in detail, fix upon the dates that are left open in the tentative draft, agree upon the plan to be adopted where two alternatives are presented and then the bill will be laid before the general assembly.

ILLINOIS COLLEGE NOTES

The regular devotional service will be held at Academy Hall Sunday evening at 6:30. The Rev. W. H. Crothers of Philadelphia, Pa., will address the meeting. Mr. Crothers, as one of the secretaries of the board of education of the Presbyterian church, has been making a tour of the colleges in the country. Any friends of the College who are interested to her Mr. Crothers will be welcome to the service at Academy Hall.

Miss Rebecca Scheibel and several students of the Classical Department have been hard at work for a long time, in rehearsals for the production of Sophocles' Antigone, which is to be given under the auspices of the Classical Club of Jacksonville. In the afternoon of May 18th, on the campus of Illinois Woman's college, Mr. Henry Caldwell and Miss Rebecca Scheibel, who appeared as Orestes and Electra in last year's play, will have the leading roles again this year. The play promises to be one of the most interesting and successful events of the year.

President J. H. McMurray, of Lincoln college, who acted as one of the judges at the Declamation Contest, was entertained at the home of Dean and Mrs. P. S. Hayden. Professor H. Eugene Densford of Alton, another judge, was a guest at the home of Prof. and Mrs. J. C. Ames.

Edward Bullard, '16, will act as one of the judges in a high school debate in Petersburg on Tuesday evening.

Principal W. L. Harris delivered the address at the commencement exercises of the Mulberry Grove high school Friday evening.

The final ballot for the selection of an alumni trustee has been sent out by the secretary of the association, Mr. A. D. Fairbank.

ILLINOIS STATE CIVIL SERVICE COMMISSION

The Illinois State Civil Service Commission, which at Springfield has just announced an examination for Principal in state institution schools to be held at twenty points in the state on Saturday, June 5, 1915. This examination should attract teachers interested in the problems arising in schools of correctional institutions and institutions for the feeble-minded. The fact that vacancies now exist in the Joliet Penitentiary, Pontiac Reformatory, and Lincoln State School and Colony, and that the starting salary is \$75 per month with board, room, and ordinary washing should make the examination appeal to well qualified teachers who are seeking responsible positions.

The main duty of a principal in a state institution school is to supervise the work of the other teachers and to take care of the larger problems of administration. The examination will be a very practical one; in addition to a statement of training and experience, it will include questions in school management, general and special method, and the subject matter taught in elementary schools. The examination will occupy only one day, and that a Saturday.

CONSERVATORY NOTES.

Mrs. A. Wehl has consented to take the part of Szeel in the Spring Festival performance of Faust. This role is a beautiful one, and suits her fine voice to perfection. Mrs. Wehl who is studying now with Mrs. Wilson, was a pupil of hers in Chicago before teaching here at the I. W. C.

The date of the Spring Festival concert has been fixed for Friday evening, May 28th. It will be held in the State Street church.

Earl Pond is singing an Aria from The Creation, Haydn, in a special musical service given by the organist of the Douglas Avenue M. E. church in Springfield on Sunday, May 2nd.

Mr. Clark Shipp came over from Springfield on Wednesday evening to rehearse with the Orchestra his role in Faust. Mr. Shipp sings this part with great fervor and finish, and the Orchestra has little trouble in following him.

Mr. Krich and Mr. Munger are spending Sunday, May 2nd, in Beardstown.

Members of the Conservatory faculty have been engaged to give a program in White Hall about the middle of May.

The Phi Omega Society will hold an open meeting next Tuesday evening May 4th, to which the public is cordially invited. The following program will be performed:

Current Events (paper) read by Karl Hill.

Prelude (piano).....Debussy Ellen McCurley.

Vulcan's Song (from Philemon et Baucis).....Gounod Earl Pond.

Some of the essentials of a good musician, read by Inez Pires.

Seventh Concerto for violin, DeBeriot Allegro maestoso—Andante.

Minnie Hoffman.

Song Cycle; The Life of a Rose.....Liza Lehmann

Day is Gone.....Lang

A Song of Joy.....Cadman

Helen Frazer.

Staccato Etude in C major (piano).....Rubinstein

Mary Daniels.

Trio, for piano, violin and viola.

Maerchenzaechenchen Schumann

Allegretto-Vivace e ben marcato—Andante

Helen Struck, piano, Alma Forsythe, violin, Dean Cochran, viola.

A students' recital will be given on Saturday afternoon, May 8th, at four.

Miss Hazel Belle Long will give a song recital next Thursday evening, May 6th, in Recital hall.

Miss Long will be assisted by Miss Carrie Dunlap, who will play violin solos.

Miss Mande Johnson, who will read, and Miss Marguerite Butler, who will accompany. The recital is open to the public.

Alma Forsythe and Dean Cochran acted as judges in a contest at Greenfield on Friday evening, April 30th.

WOMAN'S COLLEGE NOTES.

Mrs. Mary Carr Curtis, one of the field secretaries of the Women's Home Missionary Societies, is a guest of the college. Miss Winifred Muir, who has been at the college for sometime, has gone to Bloomington to look after missionary interests in that vicinity. Miss Kate Blackburn spent Sunday at the college. Miss Hazel Stevens of Robinson, Ill., a graduate of the Home Economics Department in 1909, was a visitor at the College on Thursday

and Friday. Mrs. David Reavis and daughter Nellie, of Falls City, Neb., are visiting Misses Grace and Anna Reavis. Mr. George L. Land, of Ridgway, Ill., was calling on his daughter, Miss Louise Thursday. Mrs. Boerner of Lubbock, Texas, is visiting her sister Miss Alma Mitchell. Mrs. Boerner was a student at the college from 1906 to 1909.

Miss Laura V. Shaw was a judge at the Illinois Valley high school association contest in declamation, held in Griggsville, Friday evening, the 30th of April. Miss M. Louise Glicker, head of the Expression Department, was one of the judges at the contest in declamation, held under the auspices of Illinois college.

On Thursday afternoon Miss Mothershead entertained the Seniors at a picnic lunch, held at Dunlap Springs.

Dr. Joseph R. Harker attended the meeting of the Illinois Federation of Colleges, held in Galesburg on Tuesday and Wednesday of this week. While there he read a paper on "Losses in College Attendance."

Plans for the May Day are progressing nicely. The exercises this year will be somewhat different from previous years. The plan is to have a pageant representing the motto of the college, "Knowledge, Faith and Service." The pageant will be a most interesting one. Its connection is unique and reflects credit on the committee which has worked out all the details. The same general arrangement of seating as used on May Day will remain for the Greek Play, which will be given on Tuesday of the next week.

Monday will occur the Annual Field Day, conducted by the Athletic Association.

Monday will occur the Annual Field Day, conducted by the Athletic Association.

COLLEGE OF MUSIC NOTES.

Mr. Stearns, director of the college of music, goes to Centuria on Wednesday for the meeting of the Illinois Music Teachers' Association in which he is County Vice-President for Morgan county.

Wednesday afternoon Misses Anna and Grace Reavis sang a duet before the College Guild, and Miss Eloise Capps played a violin solo.

The soloist for the Jeffries' Band Concert on next Wednesday evening is Miss Louise D. Miller of the voice faculty of the College of Music.

Miss Loretta Bergeheider of Franklin has resumed her work in piano with Miss Hay.

There will be a students' recital on Thursday afternoon of next week in Music Hall. Several interesting programs are in preparation for the closing weeks of the school year.

NICHOLS PARK GUN CLUB.

Afternoon and night shoot at the Park Thursday, May 6th, 1 o'clock and 7:30 p. m. Everybody invited.

FUNERAL NOTICE.

Funeral services for Mrs. John Owens will be held at 10 o'clock this morning at the family residence, 336 North West street and will be in charge of Rev. Dr. A. B. Morey. Interment will be in Jacksonville cemetery.

Opening dance at Nichols Park, Monday evening, May 3rd.

STILL AN ACTIVE MAN.

Jefferson Donovan of Mason City, accompanied by his nephew, visited Alexander Donovan and family Saturday. Mr. Donovan is 85 years of age but is able to attend to business and frequently drives about in his Studebaker car. He made the trip from Mason City in his car Saturday.

Running neck and neck with Beardstown and gradually drawing away from Springfield and Pawnee. Jacksonville high school won the first annual Illinois college interscholastic field meet held in Illinois field Saturday afternoon. Jacksonville with 24 points, Beardstown 21, Pawnee 15 and Springfield 14 marked the race among the leaders.

It was a fast meet and the competition was of the keen variety. So large was the number of contestants that five preliminaries were held in one event before the semi-finals were pulled off. It was by far the largest interscholastic meet of the state held outside of Chicago and the state university, in the way of schools and contestants entered, and judging from the great success of the initial gathering it is destined to become one of the leading tournaments in Central Illinois.

Impetus Given Meet.
A great impetus had been given the meet through the work of Coach Harmon and his assistants who took the beautiful cups, and medals to the various schools of the country and showed the athletes just what they were competing for. So great was the interest manifested that Springfield, who is a member of the Corn Belt league, which held their interscholastic meet in Bloomington Saturday, sent their first team to compete at Jacksonville. The Springfield lads put up a game fight for the honors and when the meet was half over first place looked very rosy for the Capital city lads.

Bucheit Star Man.
Beardstown, with their one man team, played havoc with Springfield and Pawnee's chances to win and came near upsetting the dope for Jacksonville high. Bucheit who won all the points for Beardstown is a marvel and is easily running in the footsteps of his illustrious brother, who starred for Illinois college and later at Lake Forest University. Bucheit well deserved the honors he won yesterday and no one of the big bunch of athletes would discredit the herculean task he performed in winning the beautiful loving cup offered for the highest individual point winner. Beardstown had put up a big fight for the first place they won in the meet at Grigsbyville Friday closely pursued by Jacksonville.

Pawnee was a big surprise to everyone and Jordan who won first in the 220 yard dash and the 100 yard dash, made fast company for his competitors. Jordan has the earmarks of being big university calibre. Young of Pawnee who won second place in the javelin had never seen a javelin before but thought he could make good which he did.

Jacksonville's Work.

It was a great honor for Jacksonville to win the meet and followers of the team work after the meet was on for an hour did not think they would even land in second place. The J. H. S. men are all practically new athletes, having been developed this year. Killebrew is a new man on track events and his work was watched with interest yesterday. He's speedy and his run of the 220 yard hurdles was brilliant. Meyer showed his strength in winning the discus and the hammer throw; the latter being several feet ahead of his nearest competitor. Jacksonville placed in 8 different events while Springfield, Pawnee and Beardstown only placed in five events each.

Good Record Made.

The high hurdles was an exceptionally fast race and the hundred yard dash made in the fast time of ten seconds flat establishes a fast record for high school athletes. The same time was made on two different occasions in the try-outs. Ross of Palmyra put the shot 41 feet, 11 in., which is an unusual record for high schools. So many were the entries

for the 440 yard dash that it was run in two divisions, each set of runners being awarded, first, second and third places. In the second division the race between Ator of Pleasant Hill and King of Waynesville was furious. King lead the race until within ten feet of the tape when Ator forged ahead winning by a scratch. Curran of Springfield won the mile with ease and got a good hand shake from the crowd.

Makes Hit With Flip-Flop.
Whittier of Girard, because of his flip-flop in the high jump, gained big favor with the audience. The little fellow ran up to the bar and turned a complete somersault landing on the other side. After the third jump the judges objected, the rules calling for the regular form. Shouts of "Let him jump the way he wants to" were hurled at the officials from the spectators, and "Do it again Whittier". "We're for you Whittier", came in quick succession. "I have gone 6 feet, jumping that way", said Whittier, to a bystander, and "don't see why I can't use my own way just so I get over the bar; what difference does it make how I get over". The sturdy fellow surely had the big crowd on the hip.

The Relay Race.
The relay race was run off in two different sections, the agreement being that the winner who made the fastest time would receive the cup. Jacksonville's team composed of Spencer, Killebrew, Homer Reynolds and Hembrough made the time in 1:39 min. In the second division Pawnee team won first honors making the time in 1:41 3-5. Jacksonville did not equal the time they made in Springfield a week ago by three seconds, although they ran a pretty tight race here. A peculiar feature of point winning was that Pleasant Hill, Bunker Hill, Vermont and White Hall each got six points apiece. Waverly, Quincy and Waynesville each got three.

Weather Auspicious.
The weather man smiled most favorably on the Illinois college management. What at first appeared to be a rainy day brightened up gradually until in the afternoon the sun came out bright and clear, the air was soft and pure and more perfect conditions could not have been found for both spectators and athletes. Coach Harmon, on whose shoulders so much of the responsibility of the meet rested, is surely deserving of unstinted praise. He has labored assiduously for the big meet and it certainly was all that the word success means. To handle 40 schools representing nearly three hundred athletes is no small task and yet everything was so perfectly arranged that one would not know that so large a crowd of athletes was being handled. In the person of Harry L. Gill of the university of Illinois, the management found a great referee and a starter. Gill is a man of few words but of unusual personality and he surely won a place in the hearts of the high school lads. All of those assisting in the afternoon did splendidly. The college also looked after the students who had no place to go and many of them were given meals at the club house and lodging at different private homes.

Summary.

100 yard dash—First, Jordan, Pawnee; second, King, Palmyra; third, Lashmet, Manchester. Time, 10 seconds.
440 yard dash—(first division)—First, Killebrew, Vermont; second, King, Springfield; third, Spencer, Jacksonville. Time 55 seconds.

440 yard dash—(second division)—First, Ator, Pleasant Hill; second, King, Waynesville; third, Butler, Springfield. Time 55 2-3 seconds.
Mile run—First, Curran, Springfield; second, Ross, Table Grove; third, Parsley, Pawnee. Time 4 minutes 53 seconds.

Pole vault—First, Bucheit, Beardstown; second, Routzahn, Girard; third, Eielson, Springfield. Height 19 feet 6 inches.

120 yard high hurdles—First, Bucheit, Beardstown; second, Johnson, Springfield; third, Killebrew, Jacksonville. Time 16 2-3 seconds.

Discus throw—First, Meyer, Jacksonville; second, Rogers, Waverly; third, Pullman, Bunker Hill. Distance 103 feet 2 inches.

Shot put—First, Ross, Table Grove; second, Whittier, Girard; third, King, Palmyra. Distance 41 feet 11 inches.

Half mile run—First, Eades, Palmyra; second, Tapp, Quincy; third, Parsley, Pawnee. Time 2 minutes 6 1-5 seconds.

Javelin throw—First, Bucheit, Beardstown; second, Young, Pawnee; third, Meyer, Jacksonville. Distance 141 feet.

Running Broad jump—First, Pullman, Bunkerhill; second, H. Reynolds, Jacksonville; third, Kennedy, Springfield. Distance 29 feet 7 1-4 inches.

Running High jump—First, Heyle, White Hall; second, Pullman, Bunker Hill; third, Rankin, Vermont. Height 5 feet 6 1-4 inches.

Hammer throw—First, Meyer, Jacksonville; second, Broeker, Beardstown; third, Ator, Pleasant Hill. Distance, 135 feet, 1 inch.

220 yard hurdles—First, Killebrew; second, Bucheit, Beardstown; third, Lewis, Granite City. Time, 27 seconds.
220 yard dash—First, Jordan, Pawnee; second, H. Reynolds, Jacksonville; third, W. Stribbling, Ashland. Time 23 seconds.

Relay race—first, Jacksonville; second, Pawnee.

DECATUR WINS MEET.
Bloomington, Ill., May 1.—Decatur high with a strong, well balanced team placed in nine of the fifteen events on the program here today and topped the 1915 Corn Belt meet with 27 points. Normal high was second with 21 and Delavan ranked third with 19. University high, Mason City and Springfield followed in the order named.

Decatur also won the tennis tournament and the oratorical contest.
DAVENPORT WINS AT KNOX.
Galesburg, May 1.—The Davenport high school won the annual interscholastic track and field meet at Knox college today gaining 35 points. Sol Butler, a negro star, achieved the individual record of 23 points.

Rock Island school took second place with 30 points, Kewanee 17; Geneseo 9; Canton 7; Princeton 4; Galesburg 3; Monmouth 3 and Moline 0.
MONMOUTH DEFEATS BURLINGTON.
Monmouth, Ill., May 1.—Monmouth college defeated Burlington high school track team in a dual meet this afternoon 88 to 20.

High school only got one first, that being the mile which was won by Kimler.

New York, 11; Philadelphia, 3.
New York May 1.—The New York Americans won their fifth straight game today when they scored an easy victory over the Philadelphia American League champions by 11 to 3.

The Yankees knocked Shawkey out of the box early in the game and continued to score on Bresler and Davis.

Caldwell did not extend himself as he worked under a big lead. Maisel made four hits and scored four runs in five times.

Club: Philadelphia, 101 100 000—3 7 3
New York, 132 101 035—11 13 0
Batteries—Shawkey, Bresler, Davis and Schang; Caldwell and Sweeney.

St. Louis, 5; Cleveland, 3.
Cleveland, O., May 1.—Mental and mechanical errors allowed St. Louis to defeat Cleveland by 5 to 3 in 10 innings today. All of St. Louis' runs were the result of misplays while Cleveland earned two runs of its three.

Club: Cleveland, 600 100 020 0—3 6 4
St. Louis, 100 000 200 0—5 6 9

Let It Stand Between Your Motor and Deterioration

Excessive carbon, scored cylinders, "knocking," power wasted in friction—all of which over-load your motor—are destructive, costly, unnecessary troubles.

Hundreds of thousands of motorists in the middle west alone—all won to POLARINE in the last seven years—know the protection, the efficiency and the pleasure resulting from the scientifically perfect lubricating oil.

Do YOU know this oil?

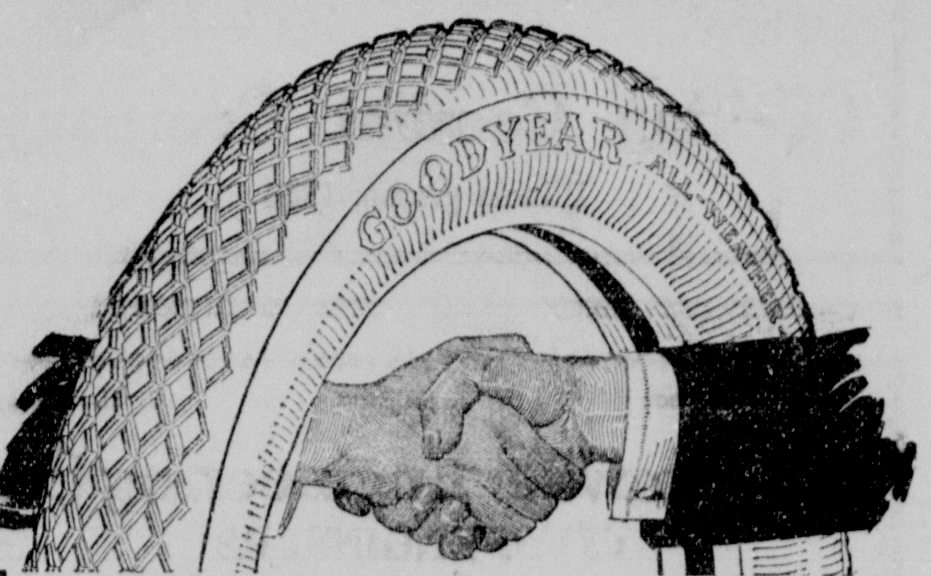

—an oil sufficiently fluid to lubricate and completely cover the remotest friction surface.

—an oil of maximum durability and correct lubricating body at any motor speed or temperature.

—an oil that pays back its cost, not only by saving repairs but by maintaining a high re-sale value for your car.

Why experiment?—when the greatest of all specialists in matters of lubrication have experimented for you. Use Polarine.

STANDARD OIL COMPANY (AN INDIANA CORPORATION) Chicago, Ill.
Use RED CROWN Gasoline. It means More Power, More Speed, More Miles per Gallon. (315)

The Co-operative Tire

Goodyear has always built co-operative tires. Every saving has gone to the user. The more men bought the better we built them, and the lower we sold them.

That is why Goodyear has held top place, outselling any other tire.

3 Reductions

Note that in two years we made three big price reductions. The last—on February 1st—brought the total to 45 per cent.

Yet in costly ways these tires have been bettered. In not one iota were they ever skimped.

Our Fortified Tire is still "On-Air" cured to save blow-outs. Yet that one extra cost us \$450,000 yearly.

It still has our No-Rim-Cut feature. It has in each base 126 braided piano

wires to make the tire secure. It embodies hundreds of rubber rivets, formed to combat loose treads.

Our All-Weather tread is still double-thick. It still has the sharp, tough, resistless grips.

Those extras—all exclusive to Goodyear—are all retained, despite our price reductions. And we still spend \$100,000 yearly to discover new ways to better them.

Your Ally

In all these ways, Goodyear is your ally. You do injustice to yourself when you fail to secure this advantage. Never in tire history was such value given as you get in Goodyear tires today.

No smaller makers can ever give so much.

Any dealer will supply you. (227)

Alex. Rabjohn, who has been there for two weeks for treatment, has returned home.

P. W. Parker, of Springfield, will be able to return to his home tomorrow.

Willard B. Stearns, of Chicago, who has been at the sanatorium for the past ten days, is now improving.

FEEBLE, AGED WOMAN

Says Vinol Made Her Strong
Grand Saline, Texas.—"I am an aged woman and for a long time was weak and feeble but Vinol restored my health and strength so that I feel almost young again and am doing all my housework. Old people who are weak and feeble should try Vinol and know its merits as I do. It is the best medicine to create strength and for chronic colds I have ever taken."—Mrs. Fannie E. Rodgers.

Vinol, our delicious cod liver and iron tonic, is sold on our guarantee to benefit or your money will be returned.—Lee P. Allcott, druggist, Jacksonville, Ill., and at leading drug stores everywhere.—Advertisement.

A MOTHER'S CRUSADE.

The proposed tour of the country in the interest of home education by the National Congress of Mothers and Parent Teachers Associations is arousing widespread interest, according to information given out by the U. S. Bureau of Education.

While child welfare conferences are being held by the State branches of the Congress of Mothers in Alabama, Georgia, Connecticut, Mississippi, Missouri, Maryland, New Hampshire, Utah and Wisconsin, the officers and leaders of the Congress, accompanied by representatives of the Bureau of Education, will cross the continent, holding organization meetings in many of the western states. This tour is intended to make the benefits of the annual conference felt as widely as possible.

As many as nine conferences will be held in the proposed tour during May. The first of these will be in Chicago, May 1, where the leaders of the Congress from the East and South will meet. St. Paul, Minn., is next on the schedule, where it is expected to organize a state branch. At Huron, S. D., the wife of Gov. Frank M. Byrne, will welcome the leaders of the movement and assist in organizing a South Dakota branch. Gov. Stewart and a thousand members of the Mothers' Congress will welcome the crusaders into Montana, and will provide for conferences at Helena and Butte. Seattle, Wash., is next on the list for a conference, then Portland, Oregon, where the annual meeting of the organization will convene, May 12-16. The final conference will be held in San Francisco.

This year's work of the Congress is in close connection with the Home Education Division of the U. S. Bureau of Education. Mrs. Frederic Schoff, president of the National Mothers' Congress, is director of the Home Education Division, which since its organization in September, 1913, has enrolled over 20,000 women from all parts of the country interested and able to cooperate in organizing parents for study of child nurture and home making.

The plan of the home education work, as revealed in the Congress of mothers and in the Home Education Division, is "the organization of the parenthood of the world for study of childhood's needs and for the promotion of child welfare." In the conferences which the Congress proposes to hold, some of the topics to be discussed are: "Peace," "Encouragement in habits of thrift and industry," "Spiritual development of children," and "Helping wayward children."

NOTICE INSURANCE MEN.

Meeting will be held Monday, 10 a. m., at Ayers National Bank basement.

Walter Ayers, chairman.

ANARCHISTS START

NEW SETTLEMENT.
New Brunswick, N. J., May 1.—The anarchists of New York and New Jersey opened today a 69-acre tract in Stelton to settlement by members of their political order. The new settlement will be governed by the ideas of the anarchists, and entirely separated from the socialist colony already established at Stelton. According to Harry Kelly, chairman of the Ferrer settlement in New York, the main object is to produce genuine anarchists by rearing children in a thoroughly anarchistic atmosphere.

ART EXHIBIT IN ST. PAUL.

LEWIS "VI" Monarch of the Sixes

More Automobile Than \$1600 Ever Bought Before

A six passenger, 135 inch wheel base, streamline touring car, electrically started and lighted; completely equipped. Don't purchase a little short Six that will bump you into nervous exhaustion every time you take it out into the country—Don't buy a makeshift Six that will keep you in a cramped position every time you use it but investigate this great, big beauty. The most car for the money that has ever been offered to the American public. It is built by one of the first men in the automobile industry. The motor and beautiful design of the car is due to the genius of Monsieur Rene Petard, one of Europe's foremost automobile engineers. Combining the work of these two men we have produced a masterpiece; a car that you will always be proud to have. Compare it with any automobile on the market, even those costing twice as much and you will see that in reality it is a \$3000 car that sells for \$1600. Information or demonstration on request.

HIS SWEETHEART

In the Spring a Young Man's Fancy
Lightly turns to Thoughts of Love.

To him she was always the same—the dearest, the sweetest, the prettiest girl in the world. In his heart she reigns supreme—his ideal of all that is best in womanhood.

His eyes reveal her to him as the possessor of a fascination and attractiveness of which nothing can deprive her. She may not wear elaborate and expensive dresses, she may not even have a pretty face, according to worldly standards. Her chiefest claim to beauty may even lie in a mass of glittering, fluffy, natural hair, growing on her own head.

But certainly no hair can be charming or even attractive if it is not properly dressed and intelligently cared for. There is a subtle charm about beautiful hair that lends more to personal adornment than the combined skill of the beauty doctor and modiste.

To the girl or woman desiring always to be at her best and to make the most of Nature's richest gift, we recommend.

Newbro's Herpicide

A true test of efficiency for this well known scalp prophylactic and hair beautifier is to be begin its use in secret and see how quickly your friends will remark on the improvement in your hair. They will tell you of an increased luster and brilliancy, they will marvel at the lightness and fluffiness of your hair and its freedom from traces of dandruff.

Herpicide is recognized everywhere as the rational remedy to eradicate dandruff contagion and to stop falling hair. A delightful hair dressing, with a dainty exquisite odor commends Newbro's Herpicide to the most fastidious tastes.

There is no oil or grease in Herpicide and it does not stain or dye the hair. Stops itching due to dandruff almost instantly.

Send 10 cents in postage or silver for sample bottle to The Herpicide Co., Dept. 124-B, Detroit, Mich. Applications at prominent barber shops. Sold and guaranteed at all Toilet Goods Counters.

ELGIN BUTTER MARKET.
Elgin, May 1.—Butter lower; 100 tubs sold at 28 cents.

Maxwell

"The Wonder Car"

Only a Blindfolded man would buy an automobile today without looking the Maxwell over

There's no excuse today for any man who is "jollied" into buying a car before he looks the 1915 Maxwell.

We give you the two vital things in this Maxwell Car and then the 17 new features that have made the 1915 Maxwell the most talked-about car ever produced.

Here are the two vital things that any sane man gets when he buys an automobile

In the first place

A handsome, real automobile that you can be proud to ride in.

In the second place

A powerful, fast, economical automobile that will take him anywhere and bring him back.

We give you these two vital things, and then just about every other detail of refinement, comfort and endurance that you can think of.

Take power and hill-climbing ability, for example—when you buy a 1915 Maxwell you buy an exact duplicate of the stock Maxwell cars in which "Wild Bill" Turner and "Billy" Carlson broke two World's Records in two of the toughest, roughest moun-

tain hill-climbs ever made—Mt. Hamilton and Mt. Wilson.

Take speed and endurance, for example—when you buy a Maxwell you buy a car made by the same designers—the same chief engineer—from the same Maxwell Laboratory, heat-treated, tested steel, that was used in the Maxwell Racers in which Barney Oldfield and "Billy" Carlson both broke the 300-mile non-stop race records in Corona and San Diego.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

Attractive Streamline Body

Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

A High-Tension Magneto

Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Sumner magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

Left Side Drive—Central Control

Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

Three-Speed Sliding Gear Transmission

All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

Double-Shell Radiator with Shock Absorbing Device

The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

The Roomy Full 5-Passenger Body Adjustable Front Seat

The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—no fit no one.

Low "Up-keep" Carburetor

The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tours conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency. Its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

Irreversible Steering Gear

The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

Heavy Car Comfort

What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

One Size of Tire—Anti-Skids on Rear

The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3 3/4 inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

A Dependable Electric Starter

For \$55 extra, you can have your Maxwell delivered equipped with the famous Simms-Huff electric starter. This starter is efficient, trouble proof and easily operated.

And the Maxwell is completely equipped from the clear vision, ventilating windshield at the front to the spare tire carrier at the rear.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

Stagnant Blood Given A Quick Impulse

Wonderful Activity Imparted by a Famous Remedy.

The appearance of pimples, boils, skin eruptions and all evidence of impure blood, call for S. S. S., the famous blood purifier. Catarrhs, purges, bowel movers and laxatives won't do.

No amount of bile will destroy certain germs which cause blood and skin eruptions. They are away down deep in the tissues, perhaps in the very marrow of the bones. And such a condition calls for the searching influence of S. S. S. It is indeed a remarkable remedy, since it is taken up by the blood stream and never loses its medicinal influence. On and on it goes, through and through the entire system and always with the same definite action to dislodge germs, destroy their activity and stimulate the liver, lungs, kidneys, bowels and skin to throw them out completely.

It stimulates stagnant blood, provides a rational exhalation to the nerve centers and thereby the natural functions of the body are aroused to cast out intruders, no matter how strongly entrenched they may be. It refutes the ancient theory that to destroy within us the germs that eat into our vital cells for drugs that destroy our very existence. Get a bottle of S. S. S. today of any druggist and for special advice on severe blood disorders write at once to the Medical Adviser, The S. S. S. Co., 103 Swift Bldg., Atlanta, Ga. Do not accept a substitute. Insist upon what you ask for.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Rubber Tires

Guaranteed. Fires one tire for vehicles, \$3.00 per tire and up. Lawn Mowers Sharpened.

JUNIOR PUPILS OF MISS RING ARE HEARD IN PIANO RECITAL

Event in Rount College Auditorium Saturday Afternoon Shows Work of Young People to Good Effect.

Junior pupils of Miss Margaret A. Ring gave their recital in Rount College auditorium Saturday afternoon at 4 o'clock before a goodly number of appreciative listeners. The program was carried out in excellent fashion and the numbers throughout spoke well for the advancement in music of Miss Ring's younger pupils. A grand forenoon Miss Ring will leave for Chicago to pursue musical study for the summer months. Her work will have to do with American composers mainly and her teacher will be Adolphe Weidig.

Following is the recital program:

Cuckoo Welfhart

Primo—Joseph Laadeth

Melody Welfhart

Primo—Almond Ryan

Etude Welfhart

Primo—Leona Ryan

Just Because of You Erb

William Kuma

NATIONALISM MUST GO.

Philadelphia, May 1.—Nationalism must be done away with, the unity of the State must pass and sovereign governments must become mere boards of administration if peace is to reign world-wide and eternal, according to August Schvam, expert on international affairs, who addressed the American Academy of Political and Social Science here today.

Mr. Schvam, a former Swedish diplomat. He was a member of the Swedish Legation at St. Petersburg (now Petrograd), former secretary to the Foreign Minister of Sweden and was recently attached to the staff of international experts to be sent by the Carnegie Endowment to lead a league of the country to organize clubs for the study of international affairs.

In his address, Mr. Schvam said, in part: "Peace can only be secured by bringing the concert of evolution to bear upon all the institutions which are supposed to and should bear further the fruition of individual human life. The teleological conception which is behind the all powerful human life. The teleological conception which is behind the all powerful state filled with enmity towards other organizations, whether external should be replaced by the simple concept that man is nothing but a gregarious animal, who has the perfectly healthy desire to get a maximum of results through a minimum of effort."

"Today his environment is no longer a township, province, a county or a continent. He draws upon the resources of the whole globe to satisfy his most simple material and mental needs. Only by removing all restrictions whether ethical, political or economic, which hamper this process can the polity realize the greatest happiness for the greatest number."

"But to become the gods of the present instead of the slaves of the past, they must resolutely do away with nationalism, which is the immediate cause of war. The teleological cure peace by regulating nationalism as far as it would be to endeavor to root out crime by inducing criminal regulation of their handiwork. Pacifists must proceed like modern criminologists who try to remove the causes which produce criminals. They should concentrate their efforts upon the destruction of nationalism by doing away with enmity of state international relationship. National Governments must become boards of administration with no other allegiance than from the parts of the inhabitants than that which they accord to their municipalities."

TRANSFERRED TO PANAMA.

Washington, May 1.—Captain R. H. Dillon, U. S. A., who for the past two years has been in charge of the construction of the Cello Canal in Oregon, is transferred today to the Panama Canal, where he becomes superintendent of locks.

ADVANCEMENT FOR MISSISSIPPI JUDGES.

Jackson, Miss., May 1.—Chancellor John M. Stevens of Hattiesburg, becomes a Justice of the State Supreme Court today, succeeding Justice Reed. Justice Stevens is one of the young men on the state bench. W. M. Denny Jr., of Pascagoula will succeed Judge Stevens as chancellor.

FOREIGN CORRESPONDENCE

By The Associated Press.)

London, April.—(Correspondence of The Associated Press.)—William C. Edgar, who had charge of the record cargo of flour valued at \$600,000 contributed to the relief of Belgium by the millers of the northwest has returned from Belgium where he witnessed the transformation of his charge into bread and its consumption by the Belgians. While in Belgium Mr. Edgar gave the representatives of the Commission for Relief in Belgium technical advice on milling. He returned enthusiastic over the work of the Commission, which he declares so successful that not a single person in Belgium need do without his daily ration of bread and soup.

Discussing the Commission's work he said: "After my personal observations in Belgium I am able to state without the slightest mental reservation whatever that, although I have had occasion to inspect many methods of public relief in various countries, I have never before seen one that can compare in efficiency, thoroughness and wisdom with the system now being employed in Belgium through the combined efforts of the Commission for Relief in Belgium and the Comité National, a provisional and emergency organization. Furthermore if I had a million or five million dollars placed at my disposal for the relief of the Belgians I would not hesitate a moment to place it at the disposal of the Commission, confident that it would employ it to the best advantage, and that not a dollar would be wasted or misapplied. In thus making such an unqualified expression of confidence I speak as the result of careful study into the methods being used and my personal observations, both in the large cities and provinces of Belgium. Americans may well be proud of the commission and the man directing it. It deserves their absolute confidence and support. I have never been given to flag flapping, but after seeing what is being done in Belgium I salute the Stars and Stripes with added humility and respect, not only as the flag of my country but the emblem of humanity."

The South Point a British ship carried the huge cargo of the northwestern millers safely into Rotterdam under the flag of the Commission and returned to her home port of Cardiff under the same safe conduct, but when she resumed her normal commercial work she was sunk by a German torpedo off the Welsh coast.

London, April.—(Correspondence of The Associated Press.)—Anton Kueperle, the American citizen of German birth who is held for trial on a charge of supplying Germany with information concerning the movements of English troops and ships, is said to have been the means of affording English detectives much inside information concerning the workings of the German spy system with headquarters in Holland. Kueperle's arrest was kept a secret for nearly two months. Meantime it is reported that Scotland yard men were using the prisoner's name as a means of communicating with German officials in Holland. In Kueperle's baggage sheets of paper used for invisible ink were found. Initiating Kueperle's handwriting, the detectives are said to have written letters to German spy chiefs, between the lines of which they traced in invisible ink all sorts of questions asking further instructions. A rapid-fire correspondence is reported to have continued until Kueperle had actually been in jail for many weeks.

The prisoner is charged with having visited many English and Irish ports for the purpose of investigating shipping and reporting to Germany concerning the movements of transports. Dublin, Liverpool and Belfast are said to be centers where he was active. He is reported to have traveled into other parts of England, using London as his headquarters. His capture took place the day following the declaration of the German submarine blockade, February 18. He was endeavoring to make the trip from England to Holland when taken into custody.

London, April.—(Correspondence of The Associated Press.)—At the order of the War Office, the censor has put his ban on "Britain's Deadly Peril," a book by William Le Queux, purporting to expose the spy danger in Great Britain. Thousands of copies which had been distributed among the dealers are held up and the publisher is enjoined from printing any more copies. This is done through the Defense of the Realm Act.

Le Queux told in his advance notices of alleged personal experiences to support his theory that the islands are honeycombed by German spies. In one case he tells of seeing a mysterious light in a lonely house on the east coast of England, where a German spy lived. He claims that he rigged up a flash light some distance away and, employing it one night when a light appeared in the German house, received in reply what was obviously a code message. He then complains that he took this information to the War Office, which merely sent a printed acknowledgment and did nothing in the way of investigation.

It is known that the censorship has cautioned newspapers against publishing articles likely to inflame the Germans and cause retaliatory measures against English interned in Germany. Furthermore, there are many naturalized Germans in England who are trusted by the authorities. The assumption is therefore made that Le Queux's book is suppressed in accordance with this policy.

Paris—April.—The censor who had rather overlooked rosters, has been charged by the Interior Department with the supervision of all views offered for sale. Photographs of towns, buildings and often views of the war zone, taken before the war, are subject to no restrictions but war scenes, views of damaged or destroyed towns and buildings, assemblages of troops, railroad lines—even humorous or sentimental scenes bearing upon the war, must have the censor's approval. Publishers of postcards already in circulation must have a copy approved; otherwise all those in circulation are subject to seizure.

SULPHUR SPRING SCHOOL CLOSES.
Sulphur Spring school, southeast of the city, taught by Miss Margaret Duffner, closed Friday, April 30, with an all day picnic. Tables had been previously arranged on the lawn, and at the noon hour the ladies of the district served a sumptuous dinner of chicken, sandwiches, salads, pies, cake and ice cream. Lawn swings and croquet added to the amusement of those present. After dinner a program of sports was enjoyed, for which prizes were awarded to the following: Peanut race—Effie Wood. Foot race, children under 10 years—Lawrence Mosely. High jump—Cecil Doyle. Sewing contest—Hattie Buchanan. Guessing contest—Mrs. W. P. Conlee. Backwards race—Shella Robbins. Cracker contest—Ralph Johnson. Pie eating contest—Minnie Kohrs. Foot race, married women—Mrs. Henry Probasco. Obstacle race—Cecil Doyle. Bean contest—Carrie Conlee. A Tag of War—won by Ralph Johnson's team concluded the program.

HELD MARKET.
Miss Marie Finney's Sunday school class of Central Christian church held a market for the disposal of eatables Saturday in the window at the W. U. Telegraph office. Those in charge were Mrs. Benlah Stice, Mrs. Buchanan, Miss Mabel Goveia, Miss Minnie Pruden, and Miss Inez Cummings. Satisfactory sales and an enjoyable day was reported.

TABOOS POPULAR SONGS.
Topeka, Kas., May 1.—The state board of administration in charge of the state schools has appointed May 1 as "songfest day" in Kansas, in an attempt to supplant the "popular songs of nonsense" with ballads of long ago.

ANNOUNCEMENT

WE take pleasure in informing the ladies of our city that we have been successful in securing the service of F. H. Foster, special organizer for the Detroit Junior League Clubs, who will be at our office and sale Monday, Tuesday and Wednesday, May 3, 4 and 5, for the purpose of organizing a local club.

Every woman in Jacksonville is cordially invited to call on the dates mentioned and learn the purposes of the organization, which briefly stated, are as follows:

To interest housewives in the best and most scientific methods of housekeeping.

To make it possible for housewives of this community to obtain the advantages of a practical course in Domestic Science, that will help to reduce the high cost of living and make "home keeping" more interesting.

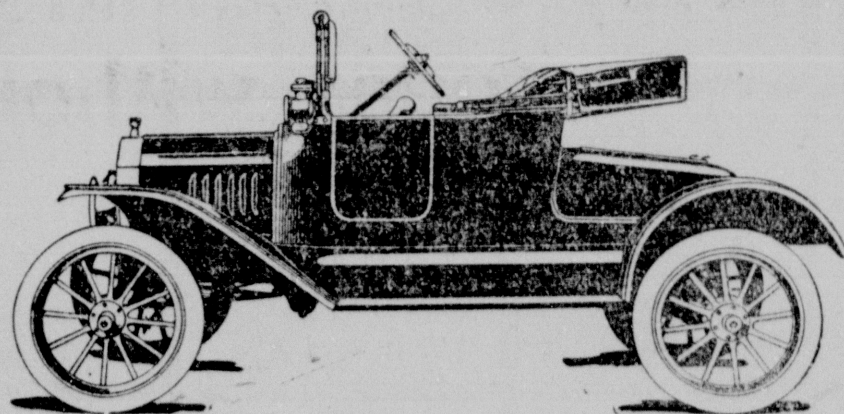

To admit of securing the latest type of modern cooking utensils, and a new style of labor-saving cabinet gas range on the most attractive basis ever offered.

In short—to apply to the work of the home, the same standards of efficiency which are applied to the office or the factory.

WORLD'S MARKET NEWS

SO-CALLED WAR STOCKS AND ALLIED SHARES CONTINUE PROMINENCE

Standard Stocks are More or Less Neglected Throughout—Westinghouse and Others in That Class Constitute Most Prominent Features.

New York, May 1.—In many respects today the short session of the stock exchange was largely a repetition of recent days, in the sense that a considerable part of the turn over was again in so-called war stocks and allied shares. Westinghouse and others in that class constituted the most prominent features, although they failed to make high records and in fact reflected selling for profits at the end. Studebaker was strongest of the motor group with a new high record on rumors of dividend prospects. Standard stocks were more or less neglected throughout and for the most part fell under yesterday's lowest quotations though showing some betterment at the close.

United States steel was the only one of the speculative favorites to show relative steadiness rising to its best in the final dealings.

The bank statement was in line with expectations, showing a large actual cash gain with an expansion of more than \$30,000,000 in loans, the latter a natural reflection of the week's activity in the stock market.

Total sales of stocks amounted to 508,000 shares.

JENKINSON-BODE COMPANY

NOTABLE BIRTHDAYS TODAY

May 2.
Brig-Gen. Oscar W. Farenholt, U. S. N., retired, veteran sea fighter of the Civil and Spanish American Wars, the only officer in the navy who began as a seaman and gained the rank of rear admiral, is 70 years old today. Admiral Farenholt saw 40 years of service and won his honors by display of bravery and resource in many capacities in the navy. He was born at San Antonio, May 2, 1845. He entered the navy in 1861 as a seaman, and took part in many of the thrilling naval operations of the Civil War. He was severely wounded in 1862, but recovered from his wounds and re-entered the navy. After the war he was commissioned an ensign, and won promotion steadily until, in 1901, he was made a rear-admiral and retired from active service after giving forty years to the navy. In the Spanish-American war he was stationed at Shanghai, in command of Dewey's base of supplies and information. Later he was commandant of the naval station at Cavite. Admiral Farenholt makes his home in San Francisco.

Hon. William S. Goodwin, Congressman from Arkansas, 49 years old today.

Princess Helena, eldest daughter of King Constantine of Greece, 19 years old today.

Hon. James F. Byrnes, Congressman from South Carolina, 36 years old today.

Jerome K. Jerome, noted English writer and humorist, 54 years old today.

Hon. Charles H. Sloan, Congressman from Nebraska, 52 years old today.

Prof. Graham Taylor, noted Chicago sociologist, 64 years old today.

Hallie Ernie Rives (Mrs. Post Wheeler) popular novelist, 37 years old today.

Edward T. Collins, second baseman of Chicago White Sox, 28 years old today.

THIS DATE IN HISTORY.

1519—Died Leonardo da Vinci, famous Italian painter, head of the Florentine school of painting.

1568—Mary, Queen of Scots, aided by the gallant George Douglas, escaped from the castle of Lochleven, where she had been confined after the murder of Darnley.

1785—Thomas Jefferson appointed United States minister to France.

1808—Embargo laid on American shipping in France.

1812—Battle of Lutzen, between Bonaparte and the allies, under the kings of Russia and Prussia. The French won the day, but losses were heavy on both sides.

1842—Start of Col. John C. Fremont's first exploring expedition to the Rocky Mountains.

1856—Died, James Gates Percival, American poet, philosopher, geologist aged 60.

1863—General "Stonewall" Jackson attacked and routed the right wing of the Federal army at Chancellorsville.

1868—Impeachment of President Johnson quashed by majority of two votes.

WORLD'S BIGGEST MEDICAL SCHOOL OPENS.

Chicago, May 1.—The world's biggest school of medicine will be inaugurated here Monday, in which medicine, surgery and sanitary science will be advanced by 8,000 of the country's foremost medical men. The new school, known as the Graduate School of Medicine of Chicago, is organized not for gain but for the purpose of bringing together the medical men of all sections into clinics and research work for the advancement of the science of healing and of health. Doctors and surgeons who are leaders in their chosen fields have volunteered as instructors, and cooperation has been assured by the American medical world.

MISSOURI CELEBRATION AT FAIR.

San Francisco, May 1.—A great three-day celebration for Missourians has been provided at the Panama-Pacific Exposition. Beginning today, the Missourians, headed by Governor Major and prominent visitors from that state, will hold parades, dances, receptions and other functions at the Missouri building. The Missouri Society of California originated the affair and provided the plans for the old-home gathering here of Missourians to meet former Missourians.

UNCLE SAM BEGINS BIG LIGHTHOUSE.

Seattle, Wash., May 1.—The government will begin today at Cape St. Elias, Alaska, the construction of an important lighthouse and fog station costing \$500,000. The lighthouse will be located on a shelf fifty feet above sea level.

NEW OFFICERS HAVE ALL FILED NECESSARY BONDS

First Regular Meeting Will be Held Monday When Assignments Will be Made.

In the office of the county clerk yesterday Henry J. Rodgers filed his bond of \$3,000 as mayor of Jacksonville, with Charles B. Graff, O. F. Buffe and M. F. Dunlap as sureties. W. F. Widmayer filed a bond in the same sum as a commissioner, with R. M. Hockenbush and O. F. Buffe as sureties. J. Edgar Martin's bond for \$3,000 was signed by C. B. Graff, O. F. Buffe and M. F. Dunlap. Saturday morning Jerry Cox and Joshua Vasconcellos were administered the oath of office by City Clerk Pyatt and the bonds of all officers having been approved by Judge Thomson in the county court, the five now make up the legally constituted city council of Jacksonville. As already stated, they will enter upon their duties tomorrow, and the first regular meeting of their administration will be at 10 o'clock. At this time, in accordance with the law, assignments to departments will be made and other business transacted.

A SPLENDID ASSORTMENT OF FIGURED VOILE DRESSES IN ALL THE LATEST MODELS, NOW ON SALE AT HERMAN'S.

SOME STOCK SALES.
A. O. Harris has recently shipped seven cars of cattle and two of hogs to Chicago. They were bought of various persons and brought different prices in Chicago. The steers brought from \$7.25 to \$8.00. There were 76 cattle averaging 1355 that brought in Chicago \$7.90. The hogs were good animals averaging 300 lbs. and brought in Chicago \$7.50. Considering the price of grain and hay the stock market is not in a very satisfactory condition but better prices are hoped for in the near future. Judging by the prices being paid for feeders and stockers in Kansas City a good many farmers do have confidence in the future.

NOTICE.
All Pythians of Mallory Lodge, No. 39, are requested to meet at their Hall on north side of Square at 2:30 sharp and proceed to Mt. Emory Baptist church for their annual sermon, preached by Rev. Mr. Nolan.

Burrell Hitt, C. C.
Ellis Moore, K. of R. & S.

BIG TELEPHONE SUIT.

Chicago, May 1.—The hearing on the receivership of the Central Union Telephone Company, a \$50,000,000 corporation of Chicago, is set for today. The case is to be heard on its merits. The big company was placed in the hands of a receiver by a suit brought by a number of the minority stockholders. The testimony of Theodore N. Vail, president of the American Telephone and Telegraph company, has been taken before a commission at Jekyll Island, the Vail winter home.

A NOVEL AFFAIR.

Paul Hempel, a young man of this city, has rigged up for himself a novel affair for riding. He has bicycle wheels and has covered them so that they look solid from a distance. Over the seat he has placed a top like that of a buggy and in front is an affair somewhat resembling an automobile engine. He has a siren whistle and the whole affair is novel indeed. It is worked wondrously by footpower and has a brake wheel like that of a railroad car.

"GOOD SAMARITAN" WORK TODAY.

50 fine stereoscopic views. 7:30 this evening. Centenary church.

BIG PILGRIMAGE TO OHIO SHRINE.

Findlay, O., May 1.—Many pilgrims from far and near gathered today at the Shrine of Our Lady of Consolation, at Carey, O., where the annual pilgrimage is being held. The services will continue until May 3. On May 5th the afflicted pilgrims will pray for deliverance from ill that the flesh is heir to. Processions will be held in which thousands will take part. Pope Leo recognized the shrine a few years ago and sent gifts bearing his coat of arms.

ROOM IN RAILROAD WORK.

Chicago, May 1.—Two thousand railroad workers will be put to work on Monday on the Burlington improving the roadbeds to meet the heavy tourist traffic which is expected this summer. Many miles of extra sidings will be laid. The Union Pacific will put 4,000 more men to work on similar improvements within a few weeks, and in all ten thousand laborers will be used by the railroads.

POSTPONED LAUNCHING OCCURS TODAY.

Newport News, Va., May 1.—Today has been set for the postponed launching of the two new coast guard cutters, the Ossipee and the Tallapoosa, at the local shipbuilding plant. Miss Sally McAdoo, daughter of the Secretary of the Treasury, will be sponsor for the Ossipee, and Miss Mabel Hartwell of Birmingham, the sponsor for the Tallapoosa.

12,000 GET RAISE OF PAY.

Calumet, Mich., May 1.—Fully 12,000 men are benefited by the ten per cent increase in wages granted by the Calumet & Hecla to the employees of its mills and smelters and three of its 11 subsidiary companies. The increase puts the wages back onto the same basis as before the strike of two years ago.

ELLIOTT STATE BANK.

All deposits made in the Savings Department during the first TEN DAYS OF MAY will draw interest from the first of the month.

CLUBS AND SOCIETIES.

The Thursday South Diamond club will meet with Mrs. A. Obermeyer, on Grove street, Thursday afternoon.

The Parents-Teachers meeting of the Third Ward will be held Tuesday, May 4th at 7:30 at the Franklin school. Rev. Cusic will make the address. There will also be a good program. All parents are urged to be present.

The East Side Tuesday club will meet with Miss Courtney Crouch, 117 Finley street, Tuesday afternoon at 3 o'clock. Prof. Isabelle Smith of the Illinois college faculty will give a "Nature Talk."

The regular monthly meeting of the Woman's Missionary society of the Congregational church will be held Tuesday in the Church parlors at 3 o'clock. Mrs. Putnam will review the book "Ann of Ava." The mite boxes will be gathered in. A full attendance of members of the church and congregation is desired.

The Woman's Foreign Missionary society of Grace M. E. church will meet with Mrs. Pitner Tuesday afternoon at 2 o'clock. Assistant hostesses Miss Mosely and Miss Hay.

The Monday Conversation club will meet with Mrs. Hinrichsen at Alexander.

The Woman's Foreign Missionary society of Centenary church will meet Monday evening, May 3rd with Mrs. Frank Bristow, 834 W. North

street. Miss Mamie Hackman and Mrs. Claude Vail, assistant hostesses. The last meeting of the Wednesday Class for the calendar year will be held with Mrs. John L. Johnson of Lockwood Place.

The Inner Circle Bible Class will meet this afternoon at 2:30 o'clock with Mrs. Emerson Lewis at her home on Bedwell street.

The Missionary Society of the First Baptist church will meet Thursday afternoon with Mrs. Alex Rabjohn. Leader, Miss Nettie Hayden.

The Literary Union will meet Monday evening with W. D. Wood. Subject: "The Struggle of Russia for an Outlet." Leader, Dr. T. J. Pinner.

The Hospital Aid society will hold a special meeting Thursday afternoon at 1 o'clock at the hospital to complete some unfinished work.

FOR SALE—A brand new \$250 spider phaeton, never been hitched to; at a bargain at Killian's, East Morgan street; the carriage and auto painter.

SALEM CHURCH MARKET.

The Ladies Aid society of Salem Methodist church, east of the city, held a market for the sale of things good to eat, in the window of the National Express Co. in Scott Block Saturday. The committee in charge was Mrs. Sallie Hoagland, Mrs. Frank Green, Mrs. Austin King, Miss Effie Crabtree and Miss Irene Phillips. The ladies reported nice sales and a happy time.

Firestone Has Done Better than Meet Popular Prices

HERE are two examples: a small size, 30x3 plain tread, and a large size, 37x5 Non-Skid. Each shown actual size. The same relative values apply in all sizes. Note the detailed specifications of sections as outlined above. Then ask any neutral repair man which manufacturer gives the most in quality. He cuts into all makes of tires. He knows. You want that extra layer of fabric in the Firestones — 4 plies instead of 3 in the small — 7 plies instead of 6 in the large size.

You want that cushion stock in the Firestone. There is none of it in the so-called "popular" priced tires. Yet it is impossible to build a full service tire without a cushion layer under the breaker strip. You must have it to prevent bruising and overstraining the fabric.

Firestone Tires have never been built down to a price. You will find everything in a Firestone that ought to be there.

Firestone Tires are vulcanized by the "two-cure" process. This is more expensive than the "one-cure," but it allows rigid inspection in the making and eliminates fabric buckles and other defects.

And you want the Firestone bead on that big tire for your safety as well as economy. Designed, built and cured into the tire specially for a clincher rim. Other clincher beads are merely patched onto straight side types.

The Sections Show These Things—The Wear, the Mileage, Prove Them

Yet you pay only 40 cents more for this small Firestone than the ordinary. And only a trifle more in proportion for the larger sizes. Because the much greater surface of the big tires demand so much more of this most expensive rubber and fabric.

And remember the little more you pay for the Firestone Non-Skid gives you a lot more tread. Ordinary anti-skids contain no extra rubber. You are asked to pay more just for a pattern. No extra rubber, no real skid protection, such as Firestones offer.

Take the word of the specialists of the industry—take the record of the Firestone Tires for 15 years—as your authority that these extras of quality are necessary for real service and true economy.

Less material and lower grades are traps to make sales on prices.

The Firestone organization, the largest in the world specializing on tires, can make and market tires and tubes at a lower cost to you, the user, than any one else in the industry.

The tires and prices prove it beyond argument.

Firestone Tube Prices Give Added Proof of Firestone Savings to You

Firestone is below them all on tubes. WHY?

A tube is good or bad to the very end and the touch. Quality can and does vary, weight can be and is skimmed, but not so radically as in tires. The buyer won't have it. Having to come near meeting Firestone quality in tubes others must go above Firestone in price.

Because, as stated, no one else manufactures and markets as economically as Firestone—or seriously pretends to.

But we are no more proud of giving you the best tube below the others than we are of giving you the best tire for so little more.

And the proof of appreciation among car owners lies in the fact that their demand for Firestones last year established 50 per cent more dealers for us and increased our output 78 per cent.

So compare the tires inside. Compare the prices. Compare the service records among your acquaintances—then get Firestones from your dealer and enjoy

EAGLES WILL OPEN SEASON WITH FRANKLIN AT NICHOLS PARK TODAY

Game Will Be Called at 3 O'clock With Wright in the Box for the Locals—Hassler to Work for Visitors.

The Jacksonville Eagles will open their baseball season at Nichols Park this afternoon at 3 o'clock when they will meet the Franklin team.

Franklin has an advantage over the locals in that they have played before this season, being defeated by Ashland by a score of 1 to 0 last Sunday, but the Jacksonville team has been practicing steadily and the contest is expected to be hard fought. Dolly Grey will probably be in the visitors' line-up. A number of improvements have been made on the local grounds, including a new top for the grandstand, and on account of the expense attached to this ladies will be charged 10 cents for grandstand seats. The general admission is 25 cents.

The line-ups follow:
Franklin: Grey, c; Doyle, c; Keys, 1b; Vermillion, 2b; Lonergan, 2b; Fisher, ss; Seymour, rf; Teany, cf; Riggs, lf; Hassler, p.
Jacksonville: Gary, 2b; McCollister, 1b; Wheeler, 3b; Clark, c; Woodman, lf; Christopher, ss; Smith, rf; Cannon, cf; Wright, p; Sloan and White, p.

All You Auto Owners and Drivers

The increasing number of automobiles and a seemingly growing tendency toward carelessness, makes timely a word of warning. Often pedestrians, especially children, are careless in the manner in which they cross the streets or loiter on the pavements. More often motorists are careless in their observance of the speed laws. Only by proper co-operation action can the danger of accidents be reduced to the minimum.

A somewhat unusual and yet quite a pointed word of warning was recently issued by William H. Roth, chief of police of Elkhart, Ind. It is headed in large type "Welcome all you auto owners and drivers, let us be friends", and then the chief of

police goes on to say the following, which should be read and pondered by the people of this city:
"We're glad you came. We're after a record of no accidents and few arrests. Are you with us? It's mostly up to you. It's our business to enforce the law. The public pays us. We swore a solemn oath to deliver the goods. With you as a business partner we can succeed. The business pays big dividends. It will save you money and save human lives. If I have to run this business alone, it will surely cost you money in fines and probably a term in jail. Enjoy yourselves on our streets. Our speed laws are lenient. Help us enforce them and we'll be partners and friends for life."

NOTICE OF FIRST MEETING OF CREDITORS.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

OPENED FOR BUSINESS.

The Merchants Service Co., with office in the Price building on East State street opened for business Saturday. The company proposes to furnish merchants and the public generally with messenger and bundle deliveries and the business of the opening day indicated that the merchants have felt the need of such a service.

INDEPENDENCE SCHOOL HAS PICNIC ON LAST DAY

The last day of school at the Independence school taught by Miss Eva Baxter was celebrated Friday by a picnic dinner held in the building there being more than fifty present aside from the children. An impromptu program was given consisting of songs and recitations. There were two dialogues entitled (1) Getting Ready for the Picnic and (2) The Minister's Call. Little Frances Cox sang "It's a Long Way to Tipperary." Miss Baxter has had a most successful year and the directors have secured her services for another year.

Those of the pupils present were, Loren Moody, George Wilson, Frances Cox, Louise Nicholson, Claude Thomas, Tolbert and Florence Meadows, Roy, Irene and Russel Mason, Russell Hunter, Inez Zirkle, Pearl Holpin, Myron, Raymond and Helen Long, Charles, Dorothy and Margaret Deaton, Herbert, Glenn, Howard and Helen Dodsworth and Russel McGee. Mrs. J. H. Danskin, son Kenneth and daughter Mrs. William Newman Jr., of Jacksonville and Mrs. Frank Hunter, Mrs. Charles Dealmear and Wallace Bealmear of Sinclair.

TO INVESTIGATE ALLEGED VOTE BUYING

Paris, Ill., May 1.—Alleged vote buying in Edgar county at the election last fall will be investigated by a federal grand jury. A deputy United States marshal came here today and served summons on several persons to appear in East St. Louis on Monday to testify.

SIMILAR SUIT TO ONE IN WISCONSIN WAS BROUGHT DURING BOER WAR

WASHINGTON, May 1.—Officials of the state and justice departments it was learned today have discovered that a similar suit to that filed Thursday in the state court of Wisconsin by Samuel Pearson seeking to prevent the exportation of war munitions was brought by a person of the same name in New Orleans during the Boer war. In that suit Samuel Pearson, a refugee Boer general, sought to prevent the exportation of American mules for the use of the British army in the Wisconsin action Samuel Pearson seeks to elicit from Otto Falk, president of the Allis-Chalmers, "facts on which to base proceedings" for alleged conspiracy to violate the neutrality laws of the United States. Officials believed the complainant to be the same in both cases.

In its decision the federal court at New Orleans held that the court of equity cannot take cognizance of such a matter.

RETURNED HOME.

Mrs. George K. Moore, who with her children, has been visiting relatives and friends here, left Saturday morning for her home in Iowa.

DAY RELATIVELY CALM.

No News of Any Importance From the Argonne Region.

Paris, May 1.—(10:40 p. m.)—The following official communication was issued by the war office tonight:

"The day has been relatively calm in Belgium and there is no news of any important occurrence in the Argonne. Last night two German attacks near Bagatelle were easily repulsed.

"In the Forest of LePretre we have taken several trenches and made 130 prisoners capturing one machine gun. We are maintaining our positions on the ground which has been conquered.

"One of our aeroplanes while flying this morning over Home was hit by a splinter from a shell which penetrated the reservoir.

"The machine however, succeeded in returning to our lines, passing over the first line of the German trenches at a height of only 400 meters. It was riddled with bullets during this difficult flight and at the moment of landing came under the fire of the enemy's artillery. The aviators, nevertheless, returned uninjured."

A. E. Driesselman of Quincy is spending the day at the home of Mr. and Mrs. J. T. Spears.

LAWN MOWERS

Diamond Edge and Pennsylvania at Gay's Reliable Hardware.

CITY AND COUNTY

Miss Ethel Allen of Waverly was a visitor in the city yesterday.

Earl Pond, who studies music at Illinois Conservatory left for Springfield last evening to sing in one of the churches today at that place.

Among those from Waverly to attend the meet Saturday were Misses Helen Kennedy, Mildred Bradford, Elizabeth Reagle, Corinne Rogers, Miss Roberts and Miss Irving.

Beginning yesterday, the office force of the Jacksonville Railway & Light Co. enjoy a Saturday half holiday. Last year they did not enjoy this privilege until after June 1. "The Mission Field under the Stars and Stripes" will be the subject of Miss Olivia G. Dunlap this morning at Grace M. E. church. From personal observation Miss Dunlap will describe present day conditions on Ellis Island.

Miss Ethel Rayborn, who was here to attend the funeral of her grandmother, Mrs. Emeline Rayborn, will resume her duties on the Brown's Business college faculty.

George Schildman, Carl Reuter and Walter Huff left for Chandlerville last evening on a short fishing trip. They motored to Beardstown and expected to proceed to Chandlerville this morning.

Miss Ruth Deters has taken a position in the office of Dr. W. B. Young and Dr. Henry B. Carriel in the Ayers Bank building, 6th floor. Miss Deters has been employed as a telephone operator at the Jacksonville State hospital.

Mrs. Myrtle W. Tandy, state president of the Rebekah assembly, has returned from a trip to Hamilton, Ill. and Nauvoo, Hancock county. At Hamilton she attended a meeting of the local lodge and at Nauvoo she presided at a special grand lodge session with Rebekahs of the twelfth district at which twenty-one past noble grands took the assembly degree.

SUNDAY NIGHT SPECIAL.

The Time, The Girl and the place is Cherry's.

BAIRD FAMILY REUNION.

Mr. and Mrs. D. J. Baird of North Prairie street, with their daughter, Miss Dana, and son, Donna Baird are spending the day at the home of Mr. and Mrs. Bert Baird, five miles south of Bluffs. Mr. and Mrs. Clyde Baird of Bloomfield, Scott county, will be present also.

STREET CARS COLLIDED.

About 1:30 yesterday afternoon the brakes on a summer street car failed to work and a collision occurred with another car near Prairie street. Some broken glass and a bent fender constituted the only damage done.

SPRINGFIELD WINS IN DECLAMATION

MISS HEEN HARNEY OF J. H. S. STANDS SECOND.

Judges' Markings Show Carrollton in Third Rank and Tallula Fourth in Contest Saturday Evening at Northminster Church.

Springfield won first place and Jacksonville second, in the Illinois College contest in declamation final Saturday evening at Northminster Presbyterian church. Twenty-nine schools were represented in the contest and the eight selected from this number in the preliminaries of Friday evening and Saturday morning, spoke in the final Saturday night. Miss Isadora Bennett was the Springfield speaker and Miss Helen Harney represented Jacksonville. Markings of the judges showed Carrollton in third place and Tallula standing fourth. At the close of the program, Coach W. T. Harmon awarded medals and prizes to winners of the track and field events and after the decision of the judges, cups were awarded to the winners in the contest in declamation. The judges were President J. H. McMurray, Lincoln college; the Rev. W. H. Crothers, Philadelphia, Penna., and Prof. H. E. Dansford, Shurtleff college. Prof. J. G. Ames had charge of the arrangements for the contest.

Other schools contesting and their representatives follow: Ashland, Elmore Gailley; Winchester, Miss Louise Townsend; Duquoin, Miss Mary Rodman; Rushville, Miss Nelle Walker; Quincy, Leo Stuart; New Berlin, Miss Effie Williamson; Chapin, Miss Isabelle Fox; Greenville, Howard Hardin; Waynesville, Clara Marvel; Divison, Harold McMurray; Astoria, Walter Parks; Pleasant Hill, Alpha Doane; Virginia, Miss Christine Sligh; Vermont, Jesse Doughton; Pawnee, Neal Chambers; Table Grove, Dorothy Abernathy; Pekin, Catherine Rollins; Manchester, Florence Lemon; Girard, Georgia Post and Griggsville, Miss Eva Hill.

The program follows:
As the Moon Rose—Lucy Wetzel, —Pittsfield.

Simon, the Gentle—Isadora Bennett, Springfield.

Hagar—Addie Lee Agee, Roodhouse.

Lord Chatham Against the American War—Harry R. Evans, White Hall.

A Pleasant Half Hour on the Beach—Velda Clark, Petersburg.

Her First Appearance—Helen Harney, Jacksonville.

In the Palace of the King—Thelma D. Chapman, Carrollton.

The Master's Violin—Mildred Sowers, Tallula.

FOR SALE—A brand new \$250 spider phaeton, never been hitched to; at a bargain at Killian's, East Morgan street; the carriage and auto painter.

SALARIES AND SERVICE.

Members of the new city council have not given the slightest hint yet as to their intention with reference to the salaries. Before election a number of them indicated their willingness to serve at reduced salaries if people so decreed by the passage of the reduced salary ordinance. Several of the candidates felt that legally the ordinance had no standing, but they recognized that despite this fact its passage would indicate a public sentiment as favorable to lower salaries. But since this ordinance was not adopted and since the ordinance now on the statute books fixes the salary of the mayor at \$2,000 and that of commissioners at \$1,700, many people are wondering if the new council will probably take no action at all and simply let the old ordinance stand.

The fair minded citizen will be compelled to admit that he would probably do the same thing under like circumstances. If this action is taken, the council should be subjected to no special criticism at this time. Question is not one of salaries, but of service, and only after the new officers have been in for a somewhat extended period will it be possible to tell whether or not they have placed too high a valuation upon their services. The salaries now in the city ordinance are probably not too high if economies are practiced, and such business methods, such efficiency displayed, that the city goes forward and manages its affairs in the progressive, effective way that characterizes the affairs of successful private corporations. No doubt every private successful business corporation could easily find some man who would gladly serve as its head and direct its affairs at a much less salary than that paid to the man at present at the head of the concern.

Some extra fine bargains in used cars at Newman's Garage.

VISITORS FROM FRANKLIN.

Among the Franklin visitors in the city yesterday were Mrs. Charles Beerup, Miss Alma Leake, Wayne Gates, Walter Teaney, Orville Burdette, Miss Mabel Hulse, Miss Beatrice Anderson, Miss Susie Reece, Mrs. Sweet, Mrs. James Tribble, Miss Mildred Tribble, Mrs. Parker Seymour, Miss Molly Harris, "Aunt" Polly Gibson and Misses Ina and Ola Gibson.

SAFETY FIRST.

Why take chances on not getting back, this never happens when you use one of Cherry's Spark Plugs.

Fred Gibson, manager of the Widmayer market on East State street, is detained at home by rheumatism.
